

MERIDIAN

Dear Ms Alexander,

Meridian TV is planning a documentary on events at Gosport War Memorial Hospital, as well as regular updates on the daily regional news programme "Meridian Tonight".

I am the reporter dealing with this, and had the pleasure of meeting you at the recent Press conference at the Solent Hotel.

If you had half an hour spare I'd be keen to come to Altrincham (or London if you are visiting your office there) to discuss your involvement. This would be an informal chat, with no camera – just to give me a clear picture of where you saw the investigation going.

I understand you are extremely busy – but would really appreciate it if you were able to squeeze us in.

I hope Meridian's involvement will help keep the fight in the public arena. We also work directly with ITV news – so can pass material on, for national coverage.

Yours Sincerely,

Andrew Pate

Code A

P.S. At the press conference you also mentioned a gynaecologist (I believe **Code A**) who had worked on the Isle of Wight and was being investigated. If you want any media coverage of this, we'd be keen to oblige.
