Hi!

Re Gosport - further actions

Thanks for the emails.

I agree with Ann that we cannot let Gillian's case delay us. Also I agree with the worry that the CPS might be talking but its not clear how serious they are about prosecuting. Paul Close did seem very co-operative about meeting. He also said he would welcome written comments from families in advance which would assist them to put the case for a prosecution.

I think we are getting the "run around" from "certain authorities". Stephen Lloyd has asked if we would be prepared to meet Norman Lamb at Westminster. I wonder if the political approach is the one to push hardest at the moment. It would be quite a high profile meeting and then we could get some help dealing with the authorities. Stephen Lloyd may contact you directly and I am hoping for some dates for the meeting. His details are below.

I will keep chipping away on the matters in hand but I do think we need some high level help and this may be the way forward.

Best wishes
