Telephone from Val Maddison from Coroner's Office. She was calling regarding your letter requesting a copy of the Transcript. She would like to discuss this with you as there are about 60 CD's and it would cost a fortune for them to copy and a long time to do. She said this would be dealt with inhouse. She said that Field Fisher Waterhouse had copies done for themselves but believes they used a transcript company to do this.

Please can you call her to discuss Code A

Thanks
