Hi!

Re Gosport

I hope that the summer is treating you well.

As you may be aware the GMC have reported on the findings of fact at the end of August, but they have adjourned the determination over serious professional misconduct by Dr Barton which is a bit frustrating.

I met with Charles and Ann in London recently and we were looking at the wider picture in the case. I wanted to ask a favour. I understand that you have a much wider data base than ourselves out of the 92 families whose relatives' deaths were investigated by the police. We have about 12 families in all.

I wonder if it would be possible for you to send a letter to all the families on your list asking them for permission to pass on their contact details to ourselves so that we can write to them directly. I suspect that you may need to send forms authority out to them and then we can see the response.

I will be very happy to give you a full update. Please can you consider if this would be possible and let me know.

Look forward to hearing from you
Best wishes
