Dear John

I've been told by Hampshire Police that Operation Rochester documents will be released/made public possibly in 2010, after the inquest, GMC etc has finished and all eth documents have been reviewed. This is its reason for refusing my FOI request which asked how many of eth medical expert reports were actually passed on to the CPS.

If you get a reply from the CPS this week, let me know
Thanks

Hi!

Sorry missed you. I have been in London in meetings.

The next thing is a concerted effort to get the CPS to re-open their investigation. We will start pressing them straight away. The big problem is we just do not know how serious some of the other 92 cases are.

I will be calling on the CPS for a meeting with myself and families.

Also Norman Lamb, Lib Dem health spokesman is assisting.

Hope all is well with you.

Best wishes

Hi John

How are you? Many news from the CPS? Keen to have another go if I can this weekend.

Best wishes

thanks

sorry not been in touch

I have tried to call Paul Close but no answer and have emailed him and left a message
