1 Disclosure -

2 Separate or one request :-

Deal as one - within a month or are concerned.

Coroner will adjudicate every individual death. Pros, pe it was of a public enquiry. Wants a conclusion in respect of each of the IO - Will reach a decision.

Cannot deal with civil or Commercial liability - Each individual will have a request - the facts of death.

3 Jury - How do you material a jury in such a way - If a part of evidence, take each individual - so far as the evidence relates to each individual - Coroner - Would have to listen to any submission for a jury.

Can deal with jury - with careful directions.

Submissions - Janet Jewan.

Mandatory case for a jury.

Alternatively

In any event - in the public interest - We will have a jury.

MPU submissions - Say what need

One case -

Mr Wilson - One case - One doctor - over a period of time

Coroner -

This can be dealt with - with a jury - within the request

Blake Lapthorn Tarlo Lyons

HJ. Jony

It's a fact finding mission. Much more convenient - saved for the next witnesses. Deal

Expert evidence.

Professor Glack.

Dr Wilcock.

They will give individual evidence

MPU. Would not ordinarily ask witnesses to come back. MPU says asking you to do something that they are experienced.

No faulting - cannot accept the decision of one person. Need closure. I will fight it - if

HJ Massive public outcry - GMC hearing not came to for release.

A jury is capable of finding them innocent.

At Jony it is - Coroner - I will conduct it as I request to conduct personally.

Police - 10 cases - I occur over a 12 month period

4. Review the GMC hearing.

Coroner says we come first and that of a jury. Difficult point and one that is never changing. Ad that proceedings should be before a jury. Only thing is any statutory wrong - and if that will be ruled off. I cannot deal with civil and criminal liability. if you want.
