Subject: RE: Hospital

Hi!

Thank you so much for you email and kind comments.

I will be delighted to help. I look forward to meeting with you on 14 August and we will have a little update just before then.

I need a little bit of a "recharge" on holiday next week!

Look forward to meeting with you again

Best wishes

Subject: Hospital

Dear Mr White

I have thought about everything that was discussed today, and thank you for your time a patience with my lack of knowledge regarding this case.

As I am sure you understand, I am finding this a difficult time as I have not been in constant contact with the other families, and the only information I have received is the general letters posted to the contact list. I thought that when the police closed the case that would be it, so was very shocked when I received letters from Field Fisher Waterhouse, (I do not even understand who they are, or their purpose) and then finding out about the inquests. I realise the time has come where I have to face this, so the impact this has on me is seven years of blanking it out. Therefore, I really hope a conclusion is reach this year.

I would like you to represent my self and more importantly my lovely little nan at the inquests and agree it is important to stand as a group, even if we have a variety of reasons to look for closure. My problem is financial, I am only able to proceed if we/I am granted legal aid. I also forgot to give you my address, as a lot of communication has gone to my previous address (moved in dec 2006!). Please forward to me the legal aid form and anything else I need to complete.

I have informed the coroner's office that I will be attending the hearing on the 14th August.

Many thanks and have a great holiday.

Yours faithfully

Pauline Gregory
