Dear John,

Have looked again at the CPS draft and would like to suggest one or two small points: in the list of 'requests' which perhaps indicate more accurately the resolve of the families:

iv. after 'MP' would suggest 'to discuss the issues and decide a way forward'

v and vi. Suggest combining into 'Reach a reasoned decision taking into account ALL available evidence, and discuss this information with ourselves and the families in an open and honest manner.

I hope that is of some use to you.
