Dear Mr Cull

Re: Robert C WILSON - (Code A
Code A

I would be very grateful if you could see this man who as you will see from the enclosed audiogram, has a bilateral sensorineural hearing loss which is undoubtedly presbycusis. We have tried him with a left sided aid and have taken an impression for that side.

I would be grateful if you could supply him with a BE11.

Yours sincerely

R T COUNTER FRCS(Ed) DLO
