Dear Dr Edwards

Mr R Wilson

**Code A**

Thank you for your letter concerning this patient.

I regret that I am unable to take on new civilian patients, particularly from outside our catchment area, at the present time.

As you will realise our prime concern is to look after Service personnel and we have had to restrict our intake of civilian patients to Service Dependants, i.e. wives and children under the age of 16 of serving personnel, and even these patients are having to wait approximately ten months before their initial outpatient appointment.

I am sorry that I cannot help in this case.

Yours sincerely

R C TELFER  
Surgeon Captain RM  
Head of Orthopaedic Department

PS I am returning herewith the letter from ~~Dr Edwards~~ *Southampton*
