Louis

Many thanks for the advice[superb as ever]. In case you were getting withdrawal symptoms I have bundled a folder of miscell corres from the families and John White, their solicitor, raising numerous evidential issues as they see them. They will doubtless raise them again in any meetings and I would like to address them in a substantive letter to the John White in due course.

Ideally I would like to get a series of meetings [police/J White/families] sorted for next month to try to put this matter to rest at last [I am not optimistic it will go away though!!]

Code A will bring it to you. Could you kindly do a note/response please to each of the points raised as you see them? I leave the format to you. Hopefully it will save time and effort later on.

Many Thanks

Paul
