Paul

- Thank you for keeping me in the loop about your meetings with the families and their solicitor
- I have been contacted by the CCP Hampshire and Isle of Wight as some of the people that you have met have fed back negatively to the local police who in turn have contacted the local CPS voicing concerns
- Code A has told me the reasons why the police were not invited to the meetings and the reasoning - the perceived breakdown of relationships between the families and the police - is perfectly understandable
- Could you please ensure that the police are kept in the information loop after the meetings so that they are not caught cold when the participants return to Hampshire and feedback locally?
- Many thanks

Simon
