

Monday 8 September 2003

Telephone from Mrs MacKenzie.

She mentioned that the police have consulted Field Fisher Waterhouse for legal advice and could not understand why the CPS had not been consulted. I explained as usual I could not comment. If she had concerns then she must discuss them with the police or with her solicitors.

She also mentioned that the police had results from Professor Forrest and she felt some of these were of great concern. She had been told by the police that they would not complete their enquiries until this time next year.
