Person interviewed : **Jean Elizabeth DALTON**

Place of interview : **Park Gate Police Station**

Date of interview : **18 July 2000**

Police exhibit no. : Number of pages : Signature of interviewing officer producing exhibit :

Time commenced : **1505** Time concluded : **1530**

Duration of interview : **25 mins** Tape reference numbers ♦ :

Interviewing Officers : **DC 1484 COLVIN DC 92 McNALLY**

Other persons present :

Tape Counter Times ♦	Person Speaking	Text
0.08	DC COLVIN	I am DC 1484 COLVIN, this is a continuation interview of Jean DALTON, time by my watch is 1505. I must remind you that you are still under caution which I did at the beginning of the interview. Can you just confirm that during the break I have not asked you any questions in relation to anything to do with why you are here.
	DALTON	Yes.
	DC COLVIN	We talked about the Golf Club basically.

Record of interview of: **Jean Elizabeth DALTON**

Tape Counter Times ♦	Person Speaking	Text
	DALTON	Yes.
	DC COLVIN	Okay, right, prior to the interview concluding I was just sort of going over the summary to summarise regarding Mrs. RICHARDS and the level of drugs here and we were discussing the fact that the drugs, particularly the four that were eventually put on the driver, nothing there in terms amounts or the combination to cause you as a Pharmacist any concern about their use?
	DALTON	No.
	DC COLVIN	Now there are just a few other things I wanted to cover before we go on. I just want to summarise over what we have talked about so far so, just to get my train of thought back. So in relation to particular patients, you look at their prescription record?
	DALTON	Yes.

Signature(s) : _____

Record of interview of: **Jean Elizabeth DALTON**

Tape Counter Times ♦	Person Speaking	Text
4.00	DC COLVIN	How does get it referred back?
	DALTON	Well if its urgent, I go to her direct....
	DC COLVIN	Yeah.
	DALTON	...to Surgery or indeed any Doctor direct, if its something that really needs bringing to attention, well I can give you an example, um, Warfarin is a medicine used to keep one's, in general terms, blood thin, so it doesn't clot and it has been controlled within fine margins and there are a number of medicines that could cause that margin to move and on occasion, a good example would be an anti-biotic might be prescribed and as I have already indicated already, this might be going on for two days or three days or whatever, prior to my arrival, so its a bit, I would put that through to her but not necessarily get on the phone and recommend that they do additional blood tests. Its quite interesting what can be given together so long as you monitor it properly so that would be something that would come up.

----------------------	-----------------	------

DC COLVIN Would you ever record on any of the patient's documents at all?

DALTON No.

5.22 DC COLVIN No. So apart from your initials on the Drug Register here you don't have any form of contact with the patients' records?

DALTON I might, no I wouldn't go to, no I would only go to their master notes if it might solve the thing that I'm querying, it might be this is a 'must' because of the combination of problems they've got and there is no way round it, so that in regard you may or may not then continue to bring it to the Doctor's in question attention 'cos there is every chance they are fully aware of it but they have got no choice.

DC COLVIN Less of two evils?

DALTON Yeah so its always about that in mind argument so you know, it

	DC McNALLY	But you haven't had a reason to do that?
	DALTON	Not recently no.
	DC McNALLY	Just that, I have a hypothetical question here and it is quite blunt I suppose, irrespective that these drugs were prescribed for this patient Mrs. RICHARDS who we appreciate did have serious medical problems other than what she was in Hospital for which was a fractured neck and femur. If those four drugs were given to a person who was a similar age, similar build, similar frailty and other than that she was quite healthy 91 year old, what sort effect with those drugs have on her?
11.36	DALTON	It depends on the individual entirely.
	DC McNALLY	Is it?
	DALTON	Yeah
	DC McNALLY	So they wouldn't necessarily knock her out and make an

inappropriate patient.....

DALTON

If you or I, if any two individuals of similar, size, build, age etc, and as far as we knew state of health were given any medicine would react differently.

DC McNALLY

So you can't give me an answer to that then?

DALTON

No.

DC McNALLY

No.

12.01 DC COLVIN

We've obviously mentioned Mrs. RICHARDS and I know you said previously that you don't really get involved with the patients.

DALTON

Its not in the contract to do it.

DC COLVIN

Right, okay, thats in your contract of employment?

you do for Daedalus.

DALTON

Well it does reflect what they've bought, as in analogy you could may be consider a Medical Ward, or a Surgical Ward or an Orthopaedic Ward.

DC McNALLY

So I take it a Surgical Ward would probably require more of your time and more of your expertise because of the drugs that use during surgery?

DALTON

Maybe yeah. They are all different and you know, those that are involved in contracting say whats available or what could be available and at what cost and as far as I understand it they are revisited on a regular basis these contracts.

14.08 DC COLVIN

Are you able to say then if they pay more or requested more you would be able to spend more visits, either more regularly to the Ward.
