Dear Mr Vinnicombe

**Code A**

Mr Arthur CUNNINGHAM dob 12.3.19

**Code A**

I would be grateful if you would consider this local civilian gentleman for lithotripsy. He has a right kidney stone which is at present not causing outflow obstruction but is resulting in persistent microscopic and macroscopic haematuria. He is otherwise pain free from the problem.

Please find enclosed his films with his latest IVU of 19 March 1991.

Yours sincerely

**Code A**

G A HILL MB ChB
