Mr. P. Wanambwa, FRCS
Civilian Consultant Urologist,
R.N. Hospital,
Haslar,
Gosport, Hants.
PO12 2AA

Dear Mr. Wanambwa,

re: Arthur CUNNINGHAM - 12.3.19

Code A

Further to Mr. Manohan's letter we have not really made any progress with this chap's right renal calculus in his renal pelvis and I think he would be better treated by percutaneous nephrolithotomy; we would be very happy to do that for him but I am sure you would like to look after Mr. Cunningham yourself. I am sorry that we have failed to treat his stone adequately.

Yours sincerely,

S. Chiverton, FRCS
Senior Urological Registrar
