

Wednesday 28 June 2006

Telephone from Mrs Reeve - part of Operation Rochester.

She had recently received an email from Hants Police (Superintendent Williams) in which he suggest he has been very busy but CPS has all the papers etc waiting for CPS etc hoping to have conference etc.

She mentioned that I wrote to her back in 2002.

I explained that matters still ongoing police undertaking enquiries but it was proposed that there would be a general discussion with the Police and Counsel in the near future and decisions may be possible in connection with all the cases investigated so far - it was a matter entirely for the police what investigation work that they did but decision could not be make piecemeal regarding the individual cases - contact will be made within due course.
