Re Deane - initial view on papers -
not yet thro' threshold of GNR.

no causation - then saw experts'
reports - reassessed correct view initially -

seen papers by Pittock. + Lenthwaite.

6 other cases - awaiting expert
evid - unless they provide evid.
supporting a pos. - similar pattern
as before -

→ polite views on enqs to date :-

Wish go thro' expert reports -
 accept expert Wilcock + Black

DP: outlined gen legal probs -
 but NB. could be formidable cases
 for pot. bodies under HSE.

Not seen anything thus far that could
 amount to homicide.

DP: cluster of cases of concern to investigators
 but code for CP. remains.

cannot aggregate cases (10) to overcome
 causation problems -

Each case must be looked at separately
 in each case. Was there gross neg. which
 caused death.

cannot present case as 9/11 deaths
 but one must be 9.1.17.

cannot use phony cases to show up
cases where cannot show g.m.r.

IF causation diff. nothing could change.
If threshold different could possibly matter a
difference.

[Each case - RPI - (code) -
No such RP. in any case so far.
Cannot take "no smoke w/o fire"
principle -

(? SF evid:

- No case but app. = no -
- must have one case + RPC
- then ? others as charges or evid (cooling)

- ongoing review - and continued
6 or 7 more cases to follow

C.N.A. - (11/1) for advice - app - decisions

- DP: ① Comat addn price material
with great care then
- ② addn. advice to Comat
fatally at end.

Cases saw old - all Slack's reports
by Nov/Dec -

Wilcocks-reps. Large - v. thorough.

Better to send in Slack's at end.

NR: No ins of DRB - But
no expert views on her accounts!
