CASE FILE INFORMATION

URN

--	--	--	--

The attached file relates to the investigation that has been conducted by the Hampshire Constabulary into 90 deaths at the Gosport War Memorial Hospital. You will be aware of the back ground of this investigation as you have provided advice and guidance to the investigating officers.

You will be further aware that the process undertaken during the course of the investigation which provided a filtering of the 90 cases to 10. These ten cases are those which provided the clinical filtering team with the greatest concern.

Those 10 cases are being subject to further medical examination with a view to providing an evidential assessment. The attached file relates to Elsie Devine who is the first person to be subject to the full investigation process.

The actual file has been constructed in a particular manner which will replicated by all of the file submissions to follow in the New Year.

I think it would of advantage to meet with you in the New Year to provide a fuller update and discuss some emerging issues. To that end I will make contact with your office soon to make the necessary appointment
