	James	Yeah, yeah.
	DC COLVIN	Okay. The time is 18.05 and the date is, what is the date, it's Monday isn't it. Monday 26 th of June, 2000. This interview is being conducted in the interview room at Park Gate Police Station. At the conclusion of the interview I'll give you a notice explaining what will happen to the tapes and it just details basically what the procedure is, what I explained at the beginning, okay. I must remind you that you are not under arrest and you are free to leave at any time and you are entitled to legal advice at any time, okay and that includes delaying the advice at any time. Do you require legal advice at this stage?
	PERKINS	Not at this stage.
	DC COLVIN	Okay. You can discuss it with a solicitor on the telephone, would you like to discuss with a solicitor on the telephone?
	PERKINS	If and when the need arises.
	DC COLVIN	Okay, but not at this time?
	PERKINS	Not at this stage of the game.
	DC COLVIN	Right, okay. What I'm going to do now is just go over, I've got this bit to read out and it's just hopefully will explain exactly

what we're after and why we're here, then we'll go from there.

The Hampshire Police have undertaken an investigation into the circumstances of the death of Mrs Gladys RICHARDS on the twenty first of August nineteen ninety eight at Gosport War Memorial Hospital, here I can't say that (laughs). The investigation centers around an allegation that Mrs RICHARDS was unlawfully killed as a result of a course of treatment that was embarked upon between the seventeenth and the twenty first of August whilst admitted to this hospital. We are seeking to interview those members of the nursing staff who had a duty of care to Mrs RICHARDS during that time and who in some cases may have provided her with direct nursing care or treatment in order that an account can be obtained to the particular circumstances and issues that existed between those dates. I emphasise that this is a search for facts and your accounts and answers will be carefully assessed in the light of information arising from other interviews with staff and general correspondence. As a result of this interview and several others further guidance will be sought from professional bodies and

ultimately the Crown Prosecution Service on how we should proceed. Now as I say just declined legal advice but there is a solicitor who has got relevant material to this and we'll show the material throughout the interview. I emphasise you are not under arrest and you are free to leave at any time, your right to free legal advice in private extends throughout the period you're at the police station. You do not have to say anything but it may harm your defence if you do not mention when questioned something which you later rely on in court, anything you do say may be given in evidence, okay. Now that's a caution and I think just to explain that, it sounds sinister but all its saying is, it's making you aware that obviously this interview we will be using and looking at and listening to and if there is any proceedings against anybody it may well be used in evidence, okay. That is a long way off if ever, I mean and that is not a decision that myself or Paul will be taking, in fact, it won't be a decision that the police on their own will be taking there will be you know advice from medical experts who will assist with this you know it's not going to be something that some policeman who's got no experience with

medical profession is going to say well yeah there's a problem there and off we go, so as I say it's basically for us to ask you some questions and to get an account from you, if you can't remember you can't remember. As I say it was two years ago, as you've said it was two years ago, okay. Alright, do you understand?

4.22 PERKINS

Yeah.

DC COLVIN

I think what I'll do now I'll just explain exactly what the allegation is. It's been made by two people, a Mrs LACK and Mrs MACKENZIE who are the daughters of Mrs RICHARDS and were at the hospital at various times between the seventeenth and the twenty first of August, nineteen ninety eight. They make several allegations, those being that the way she was transferred from Haslar hospital where she'd had a hip operation and then subsequently dislocated and had it put back in there, from coming back there to Gosport there's an allegation of the way she was carried by the ambulance staff, there's concerns about her being denied water towards the end and the level of medication she was on, there's disagreements over that and they feel that medication,

no again I understand in your role that the medication is not something you deal with but I'm just obviously given you the wider picture so it's basically the level of care and the medication she's put on that they've basically got an issue with. As I say we're basically getting an account from all members of staff and I think what we'll do is perhaps you could give me, explain to me your role in the hospital, your experience at Daedalus, how long you've been there and what you're sort of expected to do on a day to day basis.

6.07 PERKINS Right erm well first of all I work night shift so basically any sort of like, there is a difference between the night duties and the day duties.

DC COLVIN Right, yeah.

PERKINS To the extent of there's not constant people there all the time, in the areas. Erm what we basically do, oh I'm sorry I've been there two and a half years and my basic role is for supporting trained staff in whatever capacity. I don't have anything to do with medications at all...

DC COLVIN ...No.

6.40	PERKINS	...that isn't my field. All I do is general hands on nursing, that's bathing, making people comfortable, anything they need sort of toilet functions, I'm there for that, I'm there for helping them in the night if they want to use the toilet or the commode whichever way and basically in the morning giving them a wash, and getting them for their morning cups of tea and then they, day staff come on and they carry on from there with regular checks in the night depending on obviously the state of play of their health...
	DC COLVIN	...Right.
	PERKINS	...if their health is sort of terminal then we do checks sort of ten, fifteen minute intervals...
	DC COLVIN	...Oh right.
	PERKINS	...we check it out, we don't ever leave anybody that's terminally ill without somebody actually seeing if they're okay, you know for short breaks of time.
	DC COLVIN	Yeah, yeah.
	PERKINS	It's obviously they're the priority so they get checked out more so than what they would if they were sort of able or whatever, the terminally ill always given the most priority as regards

		observations.
7.51	DC COLVIN	Yeah, what sort of experience have you had in treating the elderly or...?
	PERKINS	I have over twenty seven years nursing experience with the elderly.
	DC COLVIN	Right, okay and two years at...
	PERKINS	And two years at the War Memorial...
	DC COLVIN	...at Daedalus.
	PERKINS	...yeah, at Daedalus, yeah.
	DC COLVIN	Right, okay. What sort of patients do you get into Daedalus?
	PERKINS	We get people that need stroke rehabilitation.
	DC COLVIN	Right.
	PERKINS	Erm and also we have long term, what they call long term elderly care, continuous care...
	DC COLVIN	...Right.
	PERKINS	...so that they come in and you know you try and rehabilitate to the best you can but you know it's long term elderly care so it is a bit of a different limitation to what you give for people that are short term or respite.

Tape Counter Times ♦	Person Speaking	Text
9.22	PERKINS	Whereas when you're on days, you've got sort of regular teams again but they're in their own little lots as well so really on nights it's basically three nurses, you've got your staff nurse that's in charge of the ward and you've got yourself and another health care support worker plus you've got the nurse that's in charge of the hospital throughout.
	DC COLVIN	Right, right, okay so in relation to the checks to the terminal, if you came across something that was a problem you would basically go and see the staff nurse in charge of the ward?
	PERKINS	Yes, yes you would indeed you would, if there's any change whatsoever in your considered opinion of the change of condition no matter how small you would report it, even just a flicker you know it may not seem important to everybody else but because your in that job and you're trained for it you can, you know over that many years that something wrong instinctively, you would go to your nurse in charge.
	DC COLVIN	And just yeah and make her aware.
	PERKINS	And then she would be aware of it and she would come and check it out.

does as well but they do inform the porter that you know people are going to be on the premises that he won't know and they'll be coming to the door and they need letting in and showing off, this kind of thing.

11.30 DC COLVIN

Oh right, and I mean if there's, a doctors required for any reason do you know how they...is that something that you got involved with or have seen...?

PERKINS

...As far as I'm aware if there's a doctor involved then the nurse in charge will inform the doctor.

DC COLVIN

Right.

PERKINS

And then go on actually what the doctor would say.

DC COLVIN

Yeah, advises.

PERKINS

Advises her what to do then.

DC COLVIN

Yeah, okay. Right as I've said in my long winded introduction this relates to Gladys RICHARDS, now have you had a chance to look at your duties, I know some members of staff had a chance to look back at their duties.

PERKINS

Yeah

DC COLVIN

Can you remember what you were doing?

22.32	DC COLVIN	...As opposed to
	PERKINS	...I mean if the staff nurse needs you to know any further then she will tell you but I mean nothings ever kept secret but it's just the way it goes that...you know it's just concerned with your care, what you're giving is what is translated from the staff nurse and she knows her role as well, what she has to give as well so...
	DC COLVIN	...Yeah, sure.
	PERKINS	...part of the team.
	DC COLVIN	Just one question here on the nutrition page, now there's a gap here between the when she came back on the seventeenth and I know you didn't get involved in feeding because they were asleep half the time but would there be any reason why there would be gaps like that you know for what's that four days?
	PERKINS	Yeah, I'm not sure, I'm not sure at all, I wouldn't like to say.
	DC COLVIN	No.
	PERKINS	No, 'cause I mean this is the daytime.
	DC COLVIN	Yes
	PERKINS	So whatever happens in the day happens in the day so I wouldn't like to say anything on that one.

23.29	DC COLVIN	Now I understand these forms, the care plan is kept at the foot of the bed is that right?
	PERKINS	Yeah, yeah.
	DC COLVIN	So when you've done something you can pick it up and...
	PERKINS	Yeah, yeah.
	DC COLVIN	Okay, it's not you. (Looking through) Okay, then we're onto the drugs.
	PERKINS	The actual drugs, they don't do anything...
	DC COLVIN	...No
	PERKINS	...I can't do anything about the drugs at all, I can't say anything about those because they're not my domain.
	DC COLVIN	No, okay. You've got no sort of background or able to say what that particular drug does if ...?
	PERKINS	...No, no erm basically erm we're told what is like prescribed if we, if we're looking for any erm what they call contra indications.
	DC COLVIN	Oh right, yeah.
	PERKINS	In other words any complications that might arise from that drug.
	DC COLVIN	Yeah.
	PERKINS	Erm because there's some drugs that you can take for instance

		that you can't take dairy products with....
24.49	DC COLVIN	...Oh right.
	PERKINS	...them kind of things so we're informed on a drug like that if there's going to be any adverse reactions or if it's been put on there just to sort of observe, you know like it's been put on that day and they're doing a checkout to see if the patient is actually allergic to that drug then they will tell you that, like that the possibility of sickness and this kind of thing, they've taken a tablet or whatever.
	DC COLVIN	So it's for you to keep an eye out to report back?
	PERKINS	Yeah you observe through the night and you report that back if there's any adverse effects.
	DC COLVIN	Okay, perhaps I can ask you just one question in relation to that then, now I'm aware that Mrs RICHARDS and I know you can't comment on the actual drugs but she was put on a syringe driver and was given haloperidol, hyoscine, diamorphine and midazolam.
	PERKINS	Uh uh.
	DC COLVIN	Are you aware of those combinations and whether there's any

		side effects you've been made aware of to look out for with other patients because I know you haven't got the knowledge of Mrs RICHARDS?
5.53	PERKINS	Yep, there probably will be in the pattern of time but I mean for me to say, spout off automatically...
	DC COLVIN	...Yeah.
	PERKINS	...I couldn't say.
	DC COLVIN	You couldn't say, okay.
	PERKINS	No, sorry.
	DC COLVIN	Right, well I think we'll leave it there, is there anything you'd like to add anything you feel you want to say?
	DC McNALLY	Just a quick one, if in your capacity as a health care worker, if you unhappy about something that was happening to a patient where a decision had been made by somebody more qualified than you, are you, is there a course of action you can take to make somebody else aware saying look this is happening and I don't think this is right?
	PERKINS	Yes, yes there is.
	DC McNALLY	There is, yeah and what is that course of action?

Tape Counter Times ♦	Person Speaking	Text
26.35	PERKINS	Well basically erm if you don't like what's been hap...what's happening erm and you've got a gut feeling about anything then you go to the person who's action you're querying it with.
	DC McNALLY	Yeah
	PERKINS	And you ask them why is it happening? Why, what for, for whatever reason can you give me a reasonable explanation 'cause you wasn't happy with the way it was conducted whatever and if they seem very vague or evasive or anything that you feel is wrong about the way they're coming across then you can say right well I'm not happy with your answer and I have to take it further.
	DC McNALLY	And then you go further up the chain?
	PERKINS	You go further up the chain, you go to...
	DC McNALLY	Have you had any cause to do anything like that in your career at all?
	PERKINS	No.
	DC McNALLY	No.
	PERKINS	No.
	DC McNALLY	Fine.

27.21	DC COLVIN	Okay, alright is there anything you've said that you'd like to clarify, anything that you feel we've, warrants further explanation or...?
	PERKINS	...I don't think so, I don't think so at all.
	DC COLVIN	Okay.
	PERKINS	Can't think of anything.
	DC COLVIN	Okay, not a problem, right I'm handing you this notice explaining the tape recording procedure and I'd like you to complete the lower half before we go. The time by my watch is 18.32 and I'm turning the recorder off.
