Subject : **Un lawful Killing Gladys Richards**
CPS Ref. JD 065802

CPS Portsmouth.

Further to our report to you regarding the death of Gladys Richards, and your advice of the 24th November 1998.

The consultant Geriatrician Dr, A Lord has reviewed this case and has made a report, and concentrated his review on the 3 main issues.

The 2nd of these reviews the decision to not start intravenous fluids. He state that a 3rd transfer back for intravenous fluids (to Haslar) for Mrs Richards would not have been appropriate.

This opinion concurs with decision made at the hospital, and it would be in appropriate to continue with any investigation into an unlawful killing in this case.
