	DS Code A	Is it on the notes.

	DS Code A	Yeah.
	BEED	It should be there. That looks to be the first half of it. Yeah,

	DS Code A	Okay, so it shows, what does that tell you about the patient you're

3.00	BEED	It gives, it tells us, erm, about her, this is from when he visit,

	DS Code A	Right, is there any doubt that that could be confused with pain.
	BEED	It's difficult to differentiate but I, I, the sort of actions that I was

		her and so on indicated to me that as well dementia and confusior
		that she had pain.
11.06	DS Code A	Right, okay, does Doctor REID's letter give you any indication
		he goes on about some drugs there, was it, how, Haloperidol and
		Trasadom, what do they do.
	BEED	Erm, Haloperidol is, is, erm, sedates people and helps the
		confusion, Trasadom does much the same things, it's a anti-
		depressant and, and helps with confusion.
	DS Code A	But they're (inaudible), the Trasadom anyway.
	BEED	Yeah, stopped the Trasadom, the family said that that, that they

	BEED	It's on the amount of pain the patient is in, so you've got a scale

		don't, given their overall condition.
	DS Code A	What sort of percentage get better and what don't.
	BEED	With stroke patients, and this lady wasn't a stroke patient bu

	DS Code A	Is it.
	BEED	Yeah, but they may, they may stabilise or they might die,

	DS Code A	Mrs RICHARDS is, becomes in pain.
	BEED	Yep.
	DS Code A	So you prescribe Oramorph at the rate of 2.5.
	BEED	Erm, I gave 10 milligrams in 5 mils.
	DS Code A	And you say that's a reasonable dose because of the level of pair

	BEED	Yeah. yeah.
	DS Code A	at that time.
	BEED	Yep.
	DS Code A	And that's the overall effect of dementia versus pain and, okay, do

	BEED	Erm, well that kept her comfortable, erm, and throughout the rest
		of the afternoon she was comfortable and she certainly, at that

	DS Code A	Yep, can you tell me what level of sedation she was in, was she

	DS Code A	Right, but demented never the less.
	BEED	Oh yes, yeah.
	DS Code A	So was there a change in the way that that manifested itself.
	BEED	Only in that she was more settled, noticeably less agitation.
29.16	DS Code A	Is that a side effect of Oramorph.
	BEED	Well she was on Haloperidol also, she had erm, she had
		Haloperidol also at 1800, so the Haloperidol and the, the
		Oramorph principally was to keep her pain free but it does actually

33.22 •	DS Code A	Okay, was there any discussion about the dementia and pain angle then.
	BEED	In, within erm her saying about her Mum she felt that her agitation was due to Mum needing the toilet rather than erm, rather than

	BEED	It, it has a more sedating effect on some people than it does or

	DS Code A	Had she been reviewed by any member of staff, had her pair

36.16	BEED	She'd, erm, what we'd have done was looked at her overal

	DS Code A	So what you said earlier was that the beauty of the syringe driver
