Dear Sue,

I will look out for these documents including the ones which you mentioned in you earlier email today. The papers are in the Print room for scanning due to the volume.

It will be ready and back up here with us late Monday or early Tuesday. I will then go through them and get the documentation to you.

If you would like the documents before then, please let me know.

With kind regards

[Code A]

Hi [Code A]

[Code A] has also asked that we also look out for

1. Correspondence with the Coroner David Horsley as he requested a copy of DPQC advice but we refused in line with general CPS policy; and
2. Correspondence/ briefings relating to the meeting of DPQC, Paul Close, Carmen Dowd and [Code A] etc.

If there is anything that looks like it might relate to these could I have those separately as well please?

Thank you.

Kind regards

Sue

Hi [Code A]

Thank you for arranging to have the papers that were delivered yesterday from the RMU scanned. When they are being done, please could I have a copy of the Case Summary in the Elsie Devine case together with the David Perry advices, review notes and correspondence in that case?

Elizabeth, [Code A] - Whilst the current intention is to assist the inquiry with information and decide when it reports whether we need to look again at any of this, [Code A] and I are going to keep this matter under consideration to ensure this remains the right approach.

Thank you.

Kind regards

Sue
