As discussed this am - extracts of final report to follow.

I have underlined sections of the report which relate to;

- (i) the clinical assistant directly
- (ii) clinical assistants generally
- (iii) prescribing generally (including the tables of drug usage)
- (iv) findings and recommendations which relate to either (i) - (iii) above
- (v) general explanations of CHI's role & responsibilities

As we discussed earlier, neither the PCT, nor the HA have seen either the executive summary, findings or recommendations.

As I understand, both the MDU and the doctor concerned have been sent the police expert witness reports, the systems issues of which we summarise on p.12.

August

Would be grateful if you could let me know by 1.00pm whether we can let the MDU have early site of any, all or part of the paragraphs highlighted.

Many thanks
