

Drugs.F1 prescribing	Documentation.Letter from Mrs: <b>Code A</b> date	No question of any drugs being used to sedate him, he was given only the medication prescribed by the doctors.
Drugs.F1 prescribing	Stakeholder.Interview- Mr <b>Code A</b> & Mr <b>Code A</b>	Mr <b>Code A</b> questioned who was authorised to prescribe the drugs.
Drugs.F1 prescribing	Stakeholder.Interview- Mr <b>Code A</b> & Mr <b>Code A</b>	Mr <b>Code A</b> asked about <b>Code A</b> condition and the Nurse commented on <b>Code A</b> being sedated.
Drugs.F1 prescribing	Stakeholder.Interview- Mr <b>Code A</b> & Mr <b>Code A</b>	Monday 3rd August- <b>Code A</b> was sedated all day and no visitors were allowed in.
Drugs.F1 prescribing	Stakeholder.Interview- Mr <b>Code A</b> & Mr <b>Code A</b>	Wednesday 5th August- <b>Code A</b> had been placed on a morphine syringe drive.
Drugs.F1 prescribing	Stakeholder.Mr and Mrs Bulbeck 21.11.01.t	When old people go to hospital should be in contact with GP - cover about medicines
Drugs.F1 prescribing	Stakeholder.Mr and Mrs Ripley 21.11.01.tx	Given high dose of painkillers.
Drugs.F1 prescribing	Stakeholder.Mr and Mrs Ripley 21.11.01.tx	Concerned that Mr Ripley was given diamorphine which she felt was inappropriate because he had suffered form serious attack of osteo-arthritis.
Drugs.F1 prescribing	Stakeholder.Mr <b>Code A</b> txt	Mr P considers that auto system giving diamorphines to all patients .... 'Close to manslaughter of minds'

Drugs.F1 prescribing	Stakeholder.Mr [Code A].txt	Don't ask whether patients are in pain or discomfort, whether they need analgesic.
Drugs.F1 prescribing	Stakeholder.Mr [Code A].txt	Assured by GWMH that shadow on the lung was fluid and catheterised (cause for putting her on diamorphine)
Drugs.F1 prescribing	Stakeholder.Mr [Code A]. 21.11.01.txt	26/10/98 hip bone - Haslar - op. Ok - did need zimmel and help feeding. Not demented - no pain killers at Haslar.
Drugs.F1 prescribing	Stakeholder.Mr [Code A]. 21.11.01.txt	Didn't tell him what drugs mother on. Good idea to tell us when admin opiates.
Drugs.F1 prescribing	Stakeholder.Mrs [Code A]. 22.11.01.txt	As far as she knows, the day of his death was the first time he had been given diamorphine.
Drugs.F1 prescribing	Stakeholder.Mrs [Code A]	Amazing on admission notes that can have aramorph before mother was seen.
Drugs.F1 prescribing	Stakeholder.Mrs [Code A]	Main concern - because of pre-certification and falls needed morphine.
Drugs.F1 prescribing	Stakeholder.Tele Int- Tim Welstead	Prescribing Concern about diamorphine

Drugs.F1 prescribing	Statutory Stakeholder.Community Health Council.txt	Drugs administration
Drugs.F1 prescribing	Statutory Stakeholder.Interview with Dr Warner.22.1	Prescribing/administering drugs recorded on standard drug cardexes: GPs write out prescribing instructions which nursing staff follow in administering drugs
Drugs.F1 prescribing	Statutory Stakeholder.Interview with Dr Warner.22.1	Nurses will fax GP if test result indicates change in medication necessary; medication changes sometimes agreed over the phone as long as GP attends within 2 working days
Drugs.F1 prescribing	Statutory Stakeholder.Interview with Dr Warner.22.1	Nurses would administer iopiates/other controlled drugs on doctor's prescription
Drugs.F1 prescribing	Statutory Stakeholder.Interview with Dr Warner.22.1	GP would administer first dose of such drugs inter-muscularly or any which might trigger an anacephalectic reaction;
Drugs.F1 prescribing	Statutory Stakeholder.Interview.Nicky Pendleton.22.	'all nurses would know on continuing care ward what they were allowed to prescribe'
Drugs.F1 prescribing	Vol Stakeholder.Tele Int -Mrs <b>Code A</b>	Prescribing Relatives never get told about drugs - only if have cheek to ask.
Drugs.F1 prescribing	Vol Stakeholder.Tele Int -Mrs <b>Code A</b>	Prescribing On benperidol - not over 75 / heart troubles / vertigo - never should have been given it. May now have reduced the dose.

Drugs.F1 prescribing	Vol Stakeholder.Tele Int -Mrs <b>Code A</b>	Prescribing Unable to walk now - asleep nearly all the time.
Drugs.F1 prescribing	Vol Stakeholder.Tele Int -Mrs <b>Code A</b>	Prescribing Doctors should disclose all drugs and why and what side effects are. Should be more honesty.
Drugs.F1 prescribing	Vol Stakeholder.Tele Int -Mrs <b>Code A</b>	Prescribing Patients can be overdrugged - no need to be out cold altogether.
Drugs.F2 Administration	Documentation.Questionnaire from Mrs <b>Code A</b>	Would like CHI to take account of the supervision of drug administration (it seemed to me that too much responsibility was placed on the Nurses).
Drugs.F2 Administration	Stakeholder.Mr and Mrs Ripley 21.11.01.tx	Mrs Ripley rang the following morning to ask about his condition. Told he had not had stroke but an analgesic coma and severe dehydration. Stayed in Haslan for a couple of days - could not keep him there longer as needed the bed - said they would send him back to War Memorial.
Drugs.F2 Administration	Stakeholder.Mr and Mrs Ripley 21.11.01.tx	Took him almost a year to recover. "He was on a drugs high - he was hallucinating". Doctors explained that had been morphine.
Drugs.F2 Administration	Stakeholder.Mr and Mrs Ripley 21.11.01.tx	Concerned that Mr Ripley was given diamorphine which she felt was inappropriate

		because he had suffered form serious attack of osteo-arthritis.
Drugs.F2 Administration	Stakeholder.Mr and Mrs Ripley 21.11.01.tx	Mrs R concerned about the fact that Mr R given diamorphine, given that he had had a serious attack of osteoarthritis and she understood that drugs like diamorphine shouldn't be administered
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	On the Wednesday- At the Gwmh he was seen by medical professionals and placed in a bed and administered with drugs to calm him down.
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	During time under sedation and made little sense
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	Mr [Code A]'s brother said he visited father-father was in a comatose state.
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	By Friday he was completely sedated
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	Main interest in medical records would be the administration of the drugs to Mr [Code A] father.
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	Mr [Code A] considers that auto system giving diamorphines to all patients .... 'Close to manslaughter of minds'
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	

		Immediately put on sedation on arrival at GWMH
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	She was mobile before transfer, alert and capable of feeding herself. She certainly was not in pain prior to transfer to GWMH
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	P arrived at Sultan ward at Mid-day Mr P arrived at 2 pm to find her under sedation- Mr [Code A] told that she was very ill and unlikely to survive very long.
Drugs.F2 Administration	Stakeholder.Mr [Code A].txt	Why weren't milder analgesics given before administration of diamorphine?
Drugs.F2 Administration	Stakeholder.Mrs [Code A]. 22.11.01.txt	Charge nurse gave Mr [Code A] an injection shortly before he died. Mr [Code A] had reported pain in groin after catheter procedure within 10 - 15 minutes he had died.
Drugs.F2 Administration	Stakeholder.Mrs [Code A]. 22.11.01.txt	I was often the only relative there at mealtimes and had seen patients left with meals but with no nurses help to eat. Did not complain to hospital until after he died. I don't know why they gave him diamorphine - he seemed not to be suffering htat much pain after catheter procedure.
Drugs.F2 Administration	Stakeholder.Mrs [Code A]. 22.11.01.txt	Consultant was nearby but had no part in giving injection. Nor did SHO who felt that his blood pressure was normal.
Drugs.F2 Administration	Stakeholder.Mrs Mackenzie.txt	5. 11 August, 2001: Mrs R admitted to GWM with note from consultant saying that she

		<p>was fully mobile; She was placed in a room on her own in Daedalus ward facing onto corridor and in sight of nursing staff</p> <p>6. Shortly after arrival at GWM, put on heavy sedation; became groggy; nurse said that she wasn't lucid</p>
Drugs.F2 Administration	Stakeholder.Mrs Mackenzie.txt	11. When family objected to administration of diamorphine, Dr Barton reacted angrily saying that Mrs R was her patient and that it was her decision to make; there was no reference to fact that mother had haematoma at that stage; family wanted to get her back to Haslar
Drugs.F2 Administration	Stakeholder.Mrs <b>Code A</b>	Permission was given by Mrs <b>Code A</b> for morphine for mother
Drugs.F2 Administration	Statutory Stakeholder.Betty Woodlands.txt	Drug administration policy - major nursing input
Drugs.F2 Administration	Statutory Stakeholder.Community Health Council.txt	Were not in a position to judge whether or not drugs been given properly
Drugs.F2 Administration	Statutory Stakeholder.Interview with Dr Warner.22.1	Prescribing/administering drugs recorded on standard drug cardexes: GPs write out prescribing instructions which nursing staff follow in administering drugs
Drugs.F2 Administration	Statutory Stakeholder.Interview with Dr Warner.22.1	Top 3 drugs administered in Sultan are anti-depressants, diuretics and anti-hypertension remedies
Drugs.F2 Administration	Statutory	

	Stakeholder.Interview.Nicky Pendleton.22.	Trust's elderly care acute team took responsibility for problems with medication
Drugs.F2 Administration	Statutory Stakeholder.Interview.Nicky Pendleton.22.	there were apparently 2 or 3 critical incidents at Queen Alexandra re the administration of drugs and the maintenance of drug charts
Drugs.F2 Administration	Statutory Stakeholder.Interview.Nicky Pendleton.22.	most of the work in the drugs area done by the acute group but had trust wide relevance
Drugs.F2 Administration	Statutory Stakeholder.Interview.Nicky Pendleton.22.	NP particularly concerned about potential for drug administration errors on GP wards like Sultan
Drugs.F2 Administration	Statutory Stakeholder.Interview.Nicky Pendleton.22.	'all nurses would know on continuing care ward what they were allowed to prescribe'
Drugs.F2 Administration	Statutory Stakeholder.Interview.Nicky Pendleton.22.	dangerous & controlled drugs: NP says very robust policy in acute sector . People treat this area very seriously. I was reassured by how strict and robust procedures were and how seriously staff responded to misdemeanours.' When based at Petersfield, NP herself suspended a nurse for failing to follow protocol
Drugs.F3 Review	Stakeholder.Mr [Code A]	Staff nurse Shaw - told him wife overdosing - sister reviewed medication. Dr Reid not know reviewing medication. Mr [Code A] told him and he said he'd investigate.
Drugs.F3 Review	Statutory Stakeholder.Interview.Nicky Pendleton.22.	Trust's elderly care acute team took responsibility for problems with medication

Drugs.F3 Review	Statutory Stakeholder.Interview.Nicky Pendleton.22.	dangerous & controlled drugs: NP says very robust policy in acute sector . People treat this area very seriously.
