

Telephone call from Mrs. McKenzie

14.02.02

11.10am

Mrs. McKenzie raised several points during her call- I just took the message and would not comment

1. In the report she would like to see something on Palliative care
2. This week the police have referred Mrs. McKenzie and four other cases to the GMC
3. Other cases- people have still received letters from the police about being interviewed about their concerns and have not heard from the police since May.
4. Mr. **Code A** has not heard anything yet his was one of the first cases looked at. He is now working with the GMC
5. **Code A** queries the police procedure of selecting only 4 cases out of 8 and there being no investigation
6. Mrs. McKenzie spoke of one other lady who's case is with the Ombudsman- this lady has been told she cannot see the medical file and been advised to contact CHI. Mrs. McKenzie stresses that there is no legal action that CHI can take.
