Jilly,

Please could you forward this to Dr Mundy

Dear Dr Mundy

Please find attached the draft notes review report from our piece of work earlier this year. Apologies for the length of time this has taken.

Would you be able to complete any gaps I have left and make any changes you think necessary by Friday 14th June? We are aiming to publish the final CHI investigation report during the first week in July. Legal advice has dictated that we can only make general observations - not any based on individual care - hence the tone of the report.

Many thanks for your ongoing help with this. Kellie will be in touch shortly to arrange to have the case notes etc. returned to CHI.

I'm away until 10.6 - but happy to discuss after that.

Regards

Julie Miller  
Investigation Manager
