Dear Dr Mundy

I believe that John James from the Hampshire Police has been in touch with you regarding their investigation at the War Memorial. You will know of the ongoing CHI investigation into some of the issues around prescribing you referred to in your expert witness report. The police have forwarded CHI a copy of your report, which has been used to inform our investigation.

As part of the CHI investigation, we intend to undertake a case note review of a sample of patients at the War Memorial who have died in the last 6 months. The CHI team feel that significant improvements have been made in the systems which support good prescribing and wish to establish if this has become embedded practice. Given your involvement so far, I would very much welcome your input into this piece of work.

Would you be good enough to give me a call so that I can talk through with you in more detail?

Many thanks

Yours sincerely

**Julie Miller**
