Dear Tony

Please find attached the second draft of our report for discussion next Tuesday. We're due to meet from 10.00am until 4.00pm in room 1n, with coffee from 9.30am.

This version incorporates initial legal advice, comments from CHI Directors and a GP currently seconded to CHI. I'd really like us to concentrate on the key findings and recommendations next week and have asked Alison from the Communications Team to join us for half an hour at 11.00am to help us pull the key issues together.

Our review of the notes of recent patients went well just before Easter, with no real surprises. Both Gary Ford and Keith Monday (police expert witnesses) commented on the difference in the standards of care and prescribing since 1998. I'm aiming to have a draft report based on this piece of work to share with you next week.

I shall be working at home on Thursday and Friday this week on 0207 281 0776 if you need to speak in advance of next Tuesday. Kellie will be available in the office.

You might want to keep an eye on the press next Monday when we press release the investigation of the breast screening service based at the Hammersmith Hospital. Might give us an idea of what we've got to come!!

Kellie and I are looking forward to catching up with you all next week.

Regards,

Julie Miller
Investigations Manager
