Memo

To: Linda Patterson c.c; Liz Fradd

From: Julie Miller

Date: 9 November 2001

Subject: Gosport Investigation

As we're piloting the application of Winmax for the Gosport Investigation, I've pulled together the attached proforma as a starting point.

I've pulled together, with David Bawden's help, a series of Winmax codes relating to each term of reference. Alongside this are the documents which will start to provide the necessary evidence, some of which have already been received from the trust. The team have been asked for their input in terms of additional information needed. I'd be grateful if you'd make any additional suggestions at this stage.

In addition, the team have already been sent some national policy contextual information such as the NSF, relevant extracts of the National Plan and prescribing guidance from the British Geriatric Society.

Happy to discuss.
