Caroline Harrington	CH
Ian Piper	IP

**Speaker**

Anne Grosskurth

- The CHI investigation Team must now be allowed to meet together and be given an opportunity to consider and reflect upon the information gathered from this week and information already received.
- There may be a need to continue to collect further information.

Mary Parkinson

- Thanks to all those involved

Julie Miller

- As part of CHI information gathering, CHI have meet with the Police this week
- The police shared concerns of drug usage in 1998 from two expert report
- This information has informed the questioning this week
- The police are going too reach a conclusion in the next couple of weeks
- CHI have encouraged the police to summarise the reports and present them to the Trust

Alan Carpenter

- It has been clear that there have been a lot of changes
- Staff have worked very hard to achieve the changes
- During the week CHI have meet a lot of enthusiastic, able and committed staff
- CHI are aware it has been a stressful time
- There is good local understanding there was a need for NHS learning issues.
- CHI appreciate time of views and ideas
- The changes have been a credit to you all

Tony Luxton

- CHI needs to verify changes have been done
- There maybe a need to audit patient notes
- The nature of how this audit will be done is yet to be determined

Julie Miller

- CHI would like to engage in help from the Trust to be involved in the external processes to check that these changes are embedded.

Max Millet

- Only concern is police investigation. The trust have not seen any information that the police have based their issues on
- Once the police finish with the CPS. The trust would be happy you move on.

Anne Grosskurth

- Thanks to Caroline Harrington & Viv for her help during the site week.
