

Gosport : 11.50 Tuesday

Liz

Capsticks have looked at underlined sections & are happy we fax all attached to MDU as advance notice (including all non-underlined stuff).

Capsticks have spoken to MDU solicitor and pointed out we have taken enormous care over protecting the individual doctor & has an assurance that extracts will remain confidential & that they will not make points for the sake of it (!) MDU clear that this is not a precedent and that they are not invited to comment on accuracy.

Are you happy I go ahead & fax?
