#ENDCODE

#CODEG1

Attempt to provide information for the patients/rels-

General information on wire rack, including complaint leaflet, how to find residential care, how to avoid falls etc. BUT too many leaflets stuffed in, wire rack quite high up and had to stretch for top row @ 5'8"

Photos of staff on noticeboard round corner at entrance - small photocopied, so difficult to see.

Physio info -stroke information - not layman's terms; falls leaflet very small.

#ENDCODE

#CODEC6

All bathroom and toilet facilities clean, several wheelchairs stored in corner of bathroom. 1 missing footrest. Toilets have option of dropdown rails on both sides, raised toilet seat, stock of pads alongside.

#ENDCODE

#CODEC6

No odour noticed throughout ward

#ENDCODE

#CODEC4

Breakfast service in dining room, choice of prunes, cereals, porridge, toast and tea/coffee.

Four patients at one table and one patient sat on own at another table.

#ENDCODE

#CODEG1

Patients addressed by name (both first and surnames- mostly surnames)sometimes by staff approaching from behind and then bending over patient.

#ENDCODE

#CODEC5

#CODEC1

Patients addressed by name (both first and surnames- mostly surnames)sometimes by staff approaching from behind and then bending over patient.

#ENDCODE

#CODENC

Observed one patient attempting to get up out of bed himself before curtains drawn around.

#ENDCODE

#CODEC1

One patient came out of sideward and asked me if I was ok-worried I was lost-advised by nurse not to walk around without slippers.

#ENDCODE

#CODEC1

All staff acknowledged our approach saying good morning etc.

#ENDCODE

#CODEC4

Breakfast served 8.30am. Clinical manager states that if patient chooses they can have breakfast served later on.

#ENDCODE

#CODENC

One man left to sit at breakfast table alone, let cereal bowl moved to left - I mentioned this to ward staff before we left, as concerned re: safety.

#ENDCODE

#CODEC6

Ward opens out into contained courtyard - lovely environment with pond in middle & benches around about - also long variety of ground surfaces, so good for practising outdoor mobility.
