Dear Dr Mike Gill

**RE: EVALUATION OF GOSPORT WAR MEMORIAL HOSPITAL
INVESTIGATION**

As part of CHI's development, the investigation team is committed to a thorough evaluation of our investigation processes. We are currently undertaking an evaluation of the Gosport investigation. As part of this exercise, it is important that we capture your views regarding the input of the Regional Office in the investigation process. The attached questionnaire has been designed to do this. Questionnaires are also being sent to stakeholders, liaison agencies, investigation team members and a selection of Trust staff interviewed during the site visit week. This important feedback will be analysed and fed back to the CHI Commissioners, together with a learning plan for CHI. I will keep you informed of the outcome of any discussion.

I would be grateful if you could return your completed form in the enclosed Freepost envelope by **Friday 2 August 2002**. You do not need to include your name and all information will be treated confidentially.

Yours sincerely

Rosie Newbigging
Investigations Manager
