

Stakeholder Interview

Mrs **Code A**

Code A's daughter – police put her in touch with CHI.

Mother on Daedalus ward – died August 1998, just before Mrs Richards

Her main question has always been why was mother on high dose on a syringe driver?

Meals mother given – plates left untouched – given thick wedges of sandwiches.

Had Alzheimer's, admitted QA

No one around at unit to talk to about drugs. Phillip (Bead) told her mother deteriorating and that mother did not have very long left.

Death certificate pneumonia – nothing mentioned about this before

Asked twice for pain relief – waited over an hour.

Then talked Mrs **Code A** through NHS complaints procedure and told her must contact the trust.
