

Telephone Interview

Dr Robin Clarke, Respiratory Medicine, Portsmouth acute,
28/2/02

Meeting month ago chaired by John Hughes East Hants PCT.
Concern over arbitrary criteria for admission into GP
beds locally. Work taken forward to develop common set
of criteria.

Elderly care management 'awkward' and no clear insight
into how works.

Does discharge to rehab beds and does get some back,
appropriately.

Discharge out of hours no worse than anywhere else.
