#CODENC

District Nurse 18 month Gosport, Community SE Hants and Portsmouth. Worked for two Dr's practices. Outside and inside GWMH. Fiona Cameron - general manager.

#ENDCODE

#CODEG3

Work with someone who is due to be admitted - Sultan.

#ENDCODE

#CODED8

Occasionally respite - Sultan. Mainly deals with Sultan.

#ENDCODE

#CODED8

District dealing with leg ulcer and Hospital about weight loss - communication between ward and District Nurse about leg ulcer.

#ENDCODE

#CODENC

Sultan ward and DNT very good comm. in expertise and discharge.

#ENDCODE

#CODENC

Dryad - no dealings with. Very rare for District Nurse as most people go into nursing.

#ENDCODE

#CODEG3

Personally. Need for nasal canular for patient at home - dryad staff were very helpful.

#ENDCODE

#CODEG3

Daedalus. No bad experience in communication. As District Nurse do not get involved in case conferences earlier enough.

#ENDCODE

#CODEC4

Lady came to Daedalus on ward conference about home help but consultant discharged her within 48 hours. - So many issues not enough time to equip properly.

#ENDCODE

#CODENC

Discharge. Senior Ward Nurse telephone call -> DN and community clerk filling out form to inform DN.

#ENDCODE

#CODEE1

Written discharge policy? DN - Yes/presume.

#ENDCODE

#CODEC4

Acute and Comm - Yes/presume. Working policy formulated - working party - community and acute.

#ENDCODE

#CODEC4

Respite. Patients could use Sultan for respite ie stroke, parkinson's.

#ENDCODE

#CODENC

Community enabling service changed, focused - Sultan acute medical patients.

#ENDCODE

#CODEC7

Daedalus Ward. Patients are in good condition when discharged.

#ENDCODE

#CODEC2

Daedalus Ward. Patients are in good condition when discharged.

#ENDCODE

#CODEC4

Lady could not go home with terminal illness - but safety was too high - so admitted to Sultan to pass away.

#ENDCODE

#CODEH5

Lady could not go home with terminal illness - but safety was too high - so admitted to Sultan to pass away.

#ENDCODE

#CODED8

Professional level - dealings have been very good.

#ENDCODE

#CODEG3

What would concern you? When patients falling or feel unsafe, help and support, dehydration } all hypothetically.

#ENDCODE

#CODEC2

No patients have been discharged with no pressure sores recently.

#ENDCODE

#CODENC

Interchange between community nurse and ward? Nurses forum with community ward

nurse in forum.

#ENDCODE

#CODEG3

Time is big problem for organising an opportunity to meet.

#ENDCODE

#CODENC

No barriers to communication.

#ENDCODE

#CODED8

Daedalus. Lady had a stroke - DN deployed. Lady asked ward nurse to come and help.

#ENDCODE

#CODEC2

When lady's legs could use compression bandages liaised between District Nurse and Ward Nurse.

#ENDCODE

#CODED7

Knowing names of nurses - knows some people but it may be the case Ward Nurse knows DN names.

#ENDCODE

#CODEE1

Developing Care pathways? No, nothing has happened yet.

#ENDCODE

#CODENC

Impact on colleges who went into PCT. Personally not affected, worked with district and local authorities.

#ENDCODE

#CODEB3

Nurses are talking and so communication has not failed due to becoming a PCT?

#ENDCODE

#CODENC

Very good rapport with house visitors.

#ENDCODE

#CODEE3

Palliative Care. Policies? At home?

#ENDCODE

#CODENC

It is developed understanding - crisis intervention - District Nursing lead service so acute hospital needs to contact DN.

#ENDCODE

#CODEE1

Money was funded by lottery so DN were key staff reasons for it being DN lead.

#ENDCODE

#CODENC

Case conferencing asap to enable someone to come home and die.

#ENDCODE

#CODENC

Resuscitation on older patients

#ENDCODE

#CODEH5

If patient was likely to have a resuscitation then discussion with GP.

#ENDCODE

#CODEE2

If someone requested no resuscitation DN would speak to GP and senior ward nurse.

#ENDCODE

#CODEE2

No policy to cover the scenario.

#ENDCODE

#CODENC

Quality of nursing practice.

#ENDCODE

#CODEC2

Bad practice -> according to CGR 1, discuss at ward level, ward management. 2, GP.

Feel strongly about bad practice. 3, near miss form / risk form.

#ENDCODE

#CODED3

#ENDCODE

#CODEK3

Bad practice -> according to CGR 1, discuss at ward level, ward management. 2, GP.

Feel strongly about bad practice. 3, near miss form / risk form.

#ENDCODE

#CODEK2

Whistleblowing and supervision used very positively among DN's.

#ENDCODE

#CODED3

Feels that this new culture would not have existed before / presume.

#ENDCODE

#CODEI2

IPR enable training and development removes the worry of being viewed incompetent.

#ENDCODE

#CODENC

Believes DN point of view PHT very supportive of training.

#ENDCODE

#CODENC

DN Clinical supervision. Meet month to every weeks.

#ENDCODE

#CODEI2

Work groups - across the board and grades. It is offered but not all taken up.

#ENDCODE

#CODENC

Terms of Reference - medication

#ENDCODE

#CODEK2

Lady on B12 injections - went into acute. Not aware - came for rehab - GWMH. Not

aware - DN rang to remind about injection system - failed.

#ENDCODE

aware - DN rang to remind about injection system - failed.

#ENDCODE

#CODENC

PCT Board nurses moving into PCT concerned about the move. - going into isolation => decreased networking communication of information may decline.

#ENDCODE

#CODENC

Trust has encouraged innovation but as always time constraints.

#ENDCODE

#CODENC

Open culture.
