#### **Staff Interviewed:**

- 1- Ann Haste Clinical Manager.
- 2- Katie Mann Senior Staff Nurse.
- 3- Teresa Burlinson Staff Nurse
- 4- Pamela Rigg Staff Nurse.
- 5- Yong Pease Staff Nurse.
- 6- Susan Rowlands Staff Nurse.
- 7- Valerie Horrocks Health Care Support Worker.
- 8- Toni Scammell Senior Nurse GWMH.
- 9- Doctor John Grocock. GP.

Page	No.	1
rage	TIO.	J.

Interview with: Ann Haste.

Date: 2 May 2002.

## Question 1: How long have you been employed by the Trust – Do you work Day or Night duty – Who is your Line Manager?

- ➤ Since 1985 at GWMH since June 1999
- > Days but cover nights if needed
- > Toni Scammell

#### Question 2: How would you describe your role on Sultan Ward?

- Clinical Manager responsible for day to day running on the ward Development of staff
- > Development of service provided by GP's on the ward
- > Ensuring that Trust guidelines and policies are adhered to.
- > Maintaining and improving Standards.

### Question 3: Are you aware of the complaint made by the Son of Code A

➤ Yes – I have read it.

## Question 4: Can you explain to me the routine you follow when a patient is admitted? Would any extra assessments be done on a patient admitted following multiple falls?

- ➤ Baseline assessments ADL's nutritional assessment skin integrity Bartel and Waterlow scores – lying and standing BP recorded if Patient is able to comply.
- > Care Plans
- > Referral to Physiotherapy / O.T. if necessary.

#### Page 2: Name: Ann Haste.

### Question 5: Were you on Duty on Sultan Ward between the 25-1-02 and 1-2-02:

 $\triangleright$  Yes I was on duty on the  $26^{th} - 30^{th} - 31^{st}$  and the  $1^{st}$  February.

Question 6; Were you on duty on the 30<sup>th</sup> January? An incident occurred on that day- the relatives of Code A allegedly found him sitting in a chair along side the radiator in his room — The bed was raised to its maximum height and the cot sides were up — the patient appeared distressed / agitated — he had put himself back to bed several times but had been removed from the bed by staff. — This was evidently to keep him awake so he would sleep during the night. Would you agree with this practice — did you witness this happening on that day? — Has it happened before to your knowledge?

- > Yes I was
- > I would if it was for the Patients own safety.
- ➤ Because he was restless and severely agitated at night he was in a 4 bedded room the other patients in the room had threatened him with physical violence because they had had no sleep, due to him getting back into bed and sleeping during the day
- > We were attempting to reverse his sleep pattern to a "normal" acceptable sleep pattern.
- > He was moved to a single room the same day after the "Vomiting Incident"
- > Cot sides are used in conjunction with Trust Guidelines.

## Question 7: Is it normal practice to stop patients getting in into bed when they wish? Do you agree with this?

- > No it s not normal practice
- > No
- > We wouldn't use cot sides, but he was on a Profile Bed and cot sides are an integral part of this bed.

## Question 8: Do you think it was in the Patients best interest to be sitting by a radiator?

> His chair had been moved forward out of normal position so that the Patient could see out of the window.

## <u>Ouestion 9: Is keeping a Patient up and awake the best way to ensure he sleeps at night?</u>

- > It depends Is it his normal sleeping pattern
- > Is he in a single room
- > Is it to the detriment of other patients to let him sleep

#### Page 3:

Name: Ann Haste

## <u>Question 10: What about Patient Centred Care – Patients Choice – Does it really matter when a very ill patient sleeps?</u>

- > If he is severely ill no.
- > At this stage this patient was for rehabilitation
- > Palliative care or seriously ill patients are usually nursed in single rooms, which offer more privacy and dignity to the patient and relatives.

#### Question 11: Why was there no record of this incident in the patient's notes?

- > It was a very busy shift
- ➤ We had had admissions we had 4/5 palliative care patients and a patient from Collingwood Ward
- > The ward was full of High Dependency Patients and there was only 4 staff on duty

## <u>Question 12:Why were dirty / wet clothes given to a relative to take home and wash?</u>

- Because we do not have facilities to wash Patients clothes
- ➤ The laundry here deals with Continuing Care Patients whose clothes have been labelled.
- > Clothing was rinsed through adequately removing food debris.
- > This was explained to the relatives at the time.

## <u>Question 13: Why were relatives Observations / Concerns expressed to staff on</u> the 28<sup>th</sup> and 29<sup>th</sup> Jan. not recorded in the patients notes?

ightharpoonup I cannot answer this as I was not on duty on the  $28^{th}$  /  $29^{th}$  January 2002.

Page 4:	Name:	Ann Haste.
1 4450 10	1 100,000	

Ouestion 14: Another alleged incident occurred on the 31<sup>st</sup> Jan. — Code A

had an Ultra Sound Scan at GWMH. At approximately 1540pm — he returned to
the ward at 1630 — the Nil by Mouth sign was not removed from above his bed —
Relatives arrived at 2005pm — and found Code A in a very distressed state.

Why was the sign not removed — was the patient given any fluids / food on return
to the ward — was he checked at all after he returned?

- > The Patient had not gone for Ultrasound before I went off duty that day
- > So I cannot Comment.

### Question 15:Can you suggest any way to prevent a similar incident occurring?

- > Nil by Mouth sign is to be removed from the bed when the Patient leaves to go down for Ultrasound
- > This is now in place All Staff are Aware.

Ouestion 16: Some of the food and fluid charts were not totally completed — this is a very basic nursing duty — when a patient is known to have a low fluid input — Do you know what results from insufficient fluid input/ Can you suggest a way that these could be completed properly?

- ➤ Yes Dehydration
- > You cannot measure incontinence we knew he was passing urine +++ so we were not unduly concerned
- > Assess Patients need for Charts and what the Outcome we are looking for is.

Page 5:

Name: Ann Haste

## <u>Ouestion 17: The Patient spiked a Temperature on several occasions – was this</u> reported to the G.P.?

- $\triangleright$  Yes GP visited and saw charts.
- > He was on Antibiotics for a Chest Infection

### Question 18: Is there anything else you would like to talk about / or tell me?

- > I'm concerned that there are discrepancies in what is documented and what was actually said.
- ➤ For example in the Complaint Letter the Daughter in Law states "Ward Sister was present and she remarked this was a virus and that my Wife would be getting it now"
- What I actually said was "That this could be a virus as there has been one going around and that anybody was likely to catch it"
- ➤ I spoke to the Son at length on the evening of the 30<sup>th</sup> and discussed IV Therapy He was informed that we do not have the facilities to provide the support for Patients undergoing IV Therapy he accepted that it was suggested he discuss it with Dr. Grocock
- > It was thought at the time it was not appropriate.

Interview conducted by: Betty Woodland

**Date: 2 May 2002** 

Original Statement read and signed by: Ann Haste Date: 2 May 2002

Interview with: Senior Staff Nurse Katie Mann

Date: 30th April 2002

## Question 1: How long have you been employed by the Trust – Do you work Day or Night duty – Who is your Line Manager?

- > 26yrs since July 1975
- ➤ Days at present Night duty until 1988 approx.
- > Ann Haste

#### Question 2: How would you describe your role on Sultan Ward?

- ➤ Senior Staff Nurse Accountable to Ann Haste
- > To lead the team in the absence of Ann Haste
- > Informally teaching Staff Maintaining Standards and learning environment
- > Acting as a resource link infection control and wound care
- > Ensure the smooth running of the ward.

#### Question 3: Are you aware of the complaint made by the Son of

Code A

 $\triangleright$  Yes – I have seen it.

### Question 4: Can you explain to me the routine you follow when a patient is admitted? Would any extra assessments be done on a patient admitted following multiple falls?

- > Welcome to Ward / leaflet for Patient and Relatives
- > They are put into bed and GP is informed Patient has arrived request that he be clerked in.
- > Personal history is taken / contact numbers etc.
- ➤ Immediate Basic Obs / TPR / Barthel / Waterlow if Waterlow score is high Pt. Is placed on relevant Mattress / urine test / Lifting and Handling Profile may be commenced but not necessarily completed at that time
- > After full assessment Patient is observed skin integrity checked from head to toes / any bruises / lesions etc / texture noted / All ADL sheets completed.

## Fareham and Gosport Primary Care Trust Investigation Sultan Ward – GWMH.

Patient Relatives Complaint – Re: Code A

Page 2:

Name: Katie Mann

- > If there is a history of Falls we would not Mobilize until given all clear by GP / X-ray etc done if necessary.
- > If nutritional score is low started on a Food and Fluid chart
- ➤ Shown Call Bell given fluids to hand
- ➤ Next day Referral to OT / Physiotherapy
- > If GP came in the pm, any Bloods requested would not be done until the next day / if desperate and Patient arrives before final Path Lab Run Patient would be taken to Lab in OPD.
- > X-Ray requests are taken down on the day.

#### Question 5: Were you on Duty on Sultan Ward between the 25-1-02 and 1-2-02:

ightharpoonup Yes  $-25^{th}-28^{th}-30^{th}-31^{st}$  Jan.

Question 6; Were you on duty on the 30<sup>th</sup> January? An incident occurred on that day- the relatives of Code A allegedly found him sitting in a chair along side the radiator in his room — The bed was raised to its maximum height and the cot sides were up — the patient appeared distressed / agitated — he had put himself back to bed several times but had been removed from the bed by staff. — This was evidently to keep him awake so he would sleep during the night. Would you agree with this practice — did you witness this happening on that day? — Has it happened before to your knowledge?

- ➤ Yes on late duty 12-15pm I saw the "Hartmann Rep" at 12-30pm
- > Then took report from both Team leaders (Green and Blue) before going onto the ward.
- > I have no recollection of speaking to Code A Relatives.

## Question 7: Is it normal practice to stop patients getting in into bed when they wish? Do you agree with this?

- > No
- > It should not be happening

## Question 8: Do you think it was in the Patients best interest to be sitting by a radiator?

> No

## Question 9: Is keeping a Patient up and awake the best way to ensure he sleeps at night?

> No!!!

#### Page 3: Name: Katie Mann

## <u>Question 10: What about Patient Centred Care – Patients Choice – Does it really matter when a very ill patient sleeps?</u>

- ➤ No it does not matter Its more important they rest day or night
- ➤ F and G Grades are at present on the G.N.D. Programme I feel that HCSW and all the MDT = all the team should under go same training

#### Question 11: Why was there no record of this incident in the patient's notes?

> I cannot comment on that

## <u>Ouestion 12:Why were dirty / wet clothes given to a relative to take home and wash?</u>

- > Ideally the Relatives should have been given a Leaflet telling them there is no Laundry Facilities on the ward
- ➤ GWMH has a Laundry but for Continuing Care Beds
- > If we do have someone with no family / carers we go cap in hand to the laundry.

## Question 13: Why were relatives Observations / Concerns expressed to staff on the 28<sup>th</sup> and 29<sup>th</sup> Jan. not recorded in the patients notes?

- > We endeavour when possible to record everything / all conversations
- > But it is not always possible due to Staffing Levels / High Bed Occupancy / and just Human Nature.

	Page 4:	Name:	Katie Mann
--	---------	-------	------------

Question 14: Another alleged incident occurred on the 31<sup>st</sup> Jan. — Code A had an Ultra Sound Scan at GWMH. at approximately 1540pm — he returned to the ward at 1630 — the Nil by Mouth sign was not removed from above his bed — Relatives arrived at 2005pm — and found Code A in a very distressed state. Why was the sign not removed — was the patient given any fluids / food on return to the ward — was he checked at all after he returned?

- > I cannot comment on this
- ➤ I was off duty

#### Question 15:Can you suggest any way to prevent a similar incident occurring?

> The sign should be removed when the patient goes down to x-ray.

Ouestion 16: Some of the food and fluid charts were not totally completed — this is a very basic nursing duty — when a patient is known to have a low fluid input — Do you know what results from insufficient fluid input/ Can you suggest a way that these could be completed properly?

- > Yes dehydration / other complications
- > Staff need to understand the importance of accurate recording
- > It's a training issue and a problem if there is not enough staff.

> **Page 5**:

Name: Katie Mann

## <u>Ouestion 17: The Patient spiked a Temperature on several occasions – was this reported to the G.P.?</u>

- > I can't comment on this incident
- > As a rule the GP would be informed
- > GP's also look at the charts.

### Ouestion 18: Is there anything else you would like to talk about / or tell me?

- > I regret the distress the family are feeling
- > You do not wish for this to happen
- > I can say during those few days the ward was full of very High Dependency Patients / Staffing Levels were Exceptionally Low
- > Staff were stretched to the limit physically and mentally
- ➤ I personally worked over time on several occasions that week and was unable to take my meal breaks (worked 10hrs plus per day on the 30<sup>th</sup> and 31<sup>st</sup> Jan)

Interview conducted by: Betty Woodland

Original Statement read and signed by: Katie Mann

**Date:** 30 April 2002

Page No: 1

Interview with: Teresa Burlinson

**Date:** 2 May 2002

## Question 1: How long have you been employed by the Trust – Do you work Day or Night duty – Who is your Line Manager?

- > 2yrs plus
- > Days only
- > Ann Haste

#### Question 2: How would you describe your role on Sultan Ward?

- > I am an E Grade Staff Nurse
- > I take charge of Ward Team Area (blue team)
- > I implement and supervise care plans for Patients
- > Assist and support the HCSW's
- > I now have a Student as I am a Student Assessor
- ➤ Administer Drugs
- Liase with GP's and other members of the M.D.T.

#### Question 3: Are you aware of the complaint made by the Son of

Code A

- > Yes
- > I have read it

## Question 4: Can you explain to me the routine you follow when a patient is admitted? Would any extra assessments be done on a patient admitted following multiple falls?

- ➤ Greet Patient on ward assess whether they need to be in bed or out on a chair
- ➤ Inform GP of Patients arrival if they are a transfer we take their notes / drugs to a place of safety.
- Baseline Obs.
- ➤ Then we commence admission procedure i.e.: contact numbers etc complete admission books

#### Page 2:

Name: Teresa Burlinson

- Then we sit and talk to the Patient or gather information from previous notes / GP / Relatives
- > The Patient is physically examined / skin integrity and pressure points etc
- > ADL sheets commenced
- ➤ Depending on time of admission check if Patient wants / requires food or drink
- ➤ If in pain do they need Analgesia
- ➤ If there is any doubt re injuries the GP would be contacted and Patient not Mobilized until seen by GP

#### Question 5: Were you on Duty on Sultan Ward between the 25-1-02 and 1-2-02:

Yes  $-25^{th} - 26^{th} - 27^{th} - 28^{th}$  January – then on Annual Leave, back on am of  $1^{st}$  February.

Question 6; Were you on duty on the 30<sup>th</sup> January? An incident occurred on that day- the relatives of Code A allegedly found him sitting in a chair along side the radiator in his room — The bed was raised to its maximum height and the cot sides were up — the patient appeared distressed / agitated — he had put himself back to bed several times but had been removed from the bed by staff. — This was evidently to keep him awake so he would sleep during the night. Would you agree with this practice — did you witness this happening on that day? — Has it happened before to your knowledge?

> No

## Question 7: Is it normal practice to stop patients getting in into bed when they wish? Do you agree with this?

- ➤ No its not
- > We try and encourage Patients to stay out of bed if its in their interest

## <u>Ouestion 8: Do you think it was in the Patients best interest to be sitting by a radiator?</u>

> No

Page 3: Name: Teresa Burlinson

## <u>Ouestion 9: Is keeping a Patient up and awake the best way to ensure he sleeps at night?</u>

- ➤ Not always no
- > If a Patient is poorly they will sleep anytime

## <u>Ouestion 10: What about Patient Centred Care – Patients Choice – Does it really matter when a very ill patient sleeps?</u>

- > No it should not matter
- At the end of the day if a Patient chooses their care, they will comply
- > So the outcome should be better and quicker.

#### Question 11: Why was there no record of this incident in the patient's notes?

- > Can't comment
- Was not on duty

## <u>Question 12:Why were dirty / wet clothes given to a relative to take home and wash?</u>

- > If the clothes were wet it was because we would have wanted to remove vomit etc before handing the clothes to the Relatives
- > Unfortunately we haven't a ward laundry
- > If Patients have no relatives we use Ward stock of labelled clothes and these go to the Laundry.

## <u>Question 13: Why were relatives Observations / Concerns expressed to staff on the 28<sup>th</sup> and 29<sup>th</sup> Jan. not recorded in the patients notes?</u>

- > I can't think
- > I had no contact with the Relatives at all

<b>Page 4:</b>	Name:	Teresa	Burlinson

Question 14: Another alleged incident occurred on the 31<sup>st</sup> Jan. — Code A

had an Ultra Sound Scan at GWMH. At approximately 1540pm — he returned to
the ward at 1630 — the Nil by Mouth sign was not removed from above his bed —
Relatives arrived at 2005pm — and found Code A in a very distressed state.
Why was the sign not removed — was the patient given any fluids / food on return
to the ward — was he checked at all after he returned?

> I was not on duty so cannot comment

### Question 15:Can you suggest any way to prevent a similar incident occurring?

- > Communications were at fault
- > It should have been handed over to the late shift

Question 16: Some of the food and fluid charts were not totally completed — this is a very basic nursing duty — when a patient is known to have a low fluid input — Do you know what results from insufficient fluid input/ Can you suggest a way that these could be completed properly?

- ➤ Dehydration U/E's Abnormal etc.
- > I called a Healthcall GP out to see this Patient because he was drinking so much and not passing urine.
- ➤ He was an obese man (71kgs) and I could not be sure there was not a bladder palpable.

Page 5:

Name: Teresa Burlinson

## <u>Ouestion 17: The Patient spiked a Temperature on several occasions – was this reported to the G.P.?</u>

- > I can't comment on that
- > I do not know

#### Question 18: Is there anything else you would like to talk about / or tell me?

- > Re "Liver Disease Plan" in the complaint letter
- > I inadvertently left out a full stop after Disease and this was not a Healthcall doctor but Dr. Sheila Lynch from the Patients own surgery.
- ➤ He was seen by Dr. Grocock on admission, a Healthcall doctor the next day, Dr. Lynch on Monday so we were observing his condition closely.
- > As far as we were concerned he was "off his legs" because of a chest infection.

**Interview with:** Pamela Rigg

Date: 9 May 2002

## Question 1: How long have you been employed by the Trust – Do you work Day or Night duty – Who is your Line Manager?

- ➤ Since 1993 January
- > Days
- > Ann Haste

#### Question 2: How would you describe your role on Sultan Ward?

- > E Grade staff nurse to fulfil my role as a staff nurse in care of Patients on Sultan Ward
- ➤ Liase with Medical Team / families
- > Administer Drugs
- > Carry Hospital Bleep if required
- > Advise / support / instruct HCSW's and students

#### Question 3: Are you aware of the complaint made by the Son of Code A

> Yes - yes

## Question 4: Can you explain to me the routine you follow when a patient is admitted? Would any extra assessments be done on a patient admitted following multiple falls?

- ➤ Routine admission pack to follow however on all occasions Patients are individually assessed
- Check routinely for Bruising / Injuries / lacerations / pain this involves a full body check
- > If BP was out of normal range we would continue to monitor regularly / frequently
- > Depending on consciousness level we would use Glasgow Coma Scale if necessary.

Page 2:

Name: Pamela Rigg

#### Question 5: Were you on Duty on Sultan Ward between the 25-1-02 and 1-2-02:

- ightharpoonup Yes  $-26^{th} 27^{th} 29^{th}$  Patient was Blue Team
- > 31<sup>st</sup> Jan and 1<sup>st</sup> Feb. Patient was Green Team

Question 6; Were you on duty on the 30<sup>th</sup> January? An incident occurred on that day- the relatives of Code A allegedly found him sitting in a chair along side the radiator in his room – The bed was raised to its maximum height and the cot sides were up – the patient appeared distressed / agitated – he had put himself back to bed several times but had been removed from the bed by staff. – This was evidently to keep him awake so he would sleep during the night. Would you agree with this practice – did you witness this happening on that day? – Has it happened before to your knowledge?

- $\triangleright$  No not on duty
- No it is not routine to put beds up to keep Patients out.
- > Patient would have been left with a call buzzer.

### Question 7: Is it normal practice to stop patients getting in into bed when they wish? Do you agree with this?

➤ No – definitely Not

## Question 8: Do you think it was in the Patients best interest to be sitting by a radiator?

➤ Probably not – but I'm not aware of the details

## Question 9: Is keeping a Patient up and awake the best way to ensure he sleeps at night?

➤ No – but it helps

Da	ge	₹.	
1 a	zv	J.	

#### Name:

## <u>Ouestion 10: What about Patient Centred Care – Patients Choice – Does it really</u> matter when a very ill patient sleeps?

- > No it does not matter
- > But other Patients have to taken into consideration and their needs met.

#### Question 11: Why was there no record of this incident in the patient's notes?

➤ Can't comment – not on duty

## Question 12:Why were dirty / wet clothes given to a relative to take home and wash?

- > Because the ward provides no laundry service
- > I believe the clothes had been sluiced to remove solid matter.

## Question 13: Why were relatives Observations / Concerns expressed to staff on the 28<sup>th</sup> and 29<sup>th</sup> Jan. not recorded in the patients notes?

- ➤ Not nursing Blue Team Patients
- > So unable to Comment

#### Fareham and Gosport Primary Care Trust Investigation Sultan Ward – GWMH.

mi vestigation surren	
Patient Relatives Complaint	t – Re: Code A

Page 4: Name: Pamela Rigg

Question 14: Another alleged incident occurred on the 31<sup>st</sup> Jan. — Code A

had an Ultra Sound Scan at GWMH. at approximately 1540pm — he returned to
the ward at 1630 — the Nil by Mouth sign was not removed from above his bed —
Relatives arrived at 2005pm — and found Code A in a very distressed state.
Why was the sign not removed — was the patient given any fluids / food on return
to the ward — was he checked at all after he returned?

- As nurse in charge that shift I should have ensured that the "Nil by Mouth" sign was removed when the Patient was taken to x-ray dept.
- > Since this incident all staff are aiming to ensure such signs are removed as soon as possible
- According to documentation i.e.: food and fluid chart Soup / sandwich / ice cream (albeit small portions) were given
- According to documentation the Patient was checked at 1602hrs and 1815hrs
   Patient was washed and linen changed accordingly.
- > I remember Mr. Duggan wanting his legs and feet exposed
- ➤ He was also throwing the covers off his top half in mild agitation we therefore aimed to maintain his dignity by folding a sheet in half and covering him waist to knees

#### Question 15: Can you suggest any way to prevent a similar incident occurring?

> See answer to question 14

Question 16: Some of the food and fluid charts were not totally completed — this is a very basic nursing duty — when a patient is known to have a low fluid input — Do you know what results from insufficient fluid input/ Can you suggest a way that these could be completed properly?

- > Complications / dehydration
- ➤ More Staff Please More Time

Page 5: Name: Pamela Rigg

## <u>Question 17: The Patient spiked a Temperature on several occasions – was this reported to the G.P.?</u>

> I can't comment Patient was Blue Team

#### Question 18: Is there anything else you would like to talk about / or tell me?

- ➤ In general terms I feel Nurses and support staff on Sultan Ward are extremely conscientious and caring in their work
- > All individuals are treated according to their needs when possible
- > This is only omitted by lack of Staff / Time allocation / and Priorities
- > In an ideal world, all Patients would receive the care they required as this then makes the job rewarding
- > There is a generalised feeling that despite total and absolute physical and emotional input from the ward staff This is never enough.

Interview conducted by: Betty Woodland

**Date:** 9 May 2002

Original Statement read and signed by: Pamela Rigg

**Date:** 9 May 2002

Page No: 1

**Interview with:** Yong Pease

**Date:** 25 May 2002

### Question 1: How long have you been employed by the Trust - Do you work Day or Night duty – Who is your Line Manager?

- ➤ 15yrs.
- > Days only
- > Ann Haste

### Question 2: How would you describe your role on Sultan Ward?

- Jack of all trades
- > I'm supposed to know the Patients / answer to Gp's / has the plumber been / how can I obtain extra supplies / anything that comes up I have to find a way of dealing with it
- ➤ Grade E Staff Nurse

### Question 3: Are you aware of the complaint made by the Son of

Code A

- > Yes I have read the letter
- > Ann spoke about it

### Question 4: Can you explain to me the routine you follow when a patient is admitted? Would any extra assessments be done on a patient admitted following multiple falls?

- > I think I would ask questions about the falls I would do a care plan for that -I would ask the Patient how they feel / why do they think they fell
- > Test urine Uti's affect balance
- > Check body for any bruising / obvious injury / complete a body chart

#### Name: Yong Pease Page 2:

- > Ask relatives were they present / is this a new feature or has it happened
- > Then I would complete all basic Obs / Waterlow / Barthel / ADL's / name hand etc

## Question 5: Were you on Duty on Sultan Ward between the 25-1-02 and 1-2-02:

 $ightharpoonup Yes - 25^{th} - 28^{th} \text{ and } 29^{th} \text{ only}$ 

Question 6; Were you on duty on the 30th January? An incident occurred on that day- the relatives of Code A allegedly found him sitting in a chair along side the radiator in his room - The bed was raised to its maximum height and the cot sides were up - the patient appeared distressed / agitated - he had put himself back to bed several times but had been removed from the bed by staff. -This was evidently to keep him awake so he would sleep during the night. Would you agree with this practice - did you witness this happening on that day? - Has it happened before to your knowledge?

- ➤ No I am unable to comment on the 30<sup>th</sup>
- ➤ But I remember an incident approx.8pm on the 25<sup>th</sup> Jan.
- > The Son told me that he had tried to give the Patient a drink but he would not take it
- > So I went and made him a cup of tea Marie and I sat him up and the Patient drank the whole cup of tea the Son was present.
- > I then went and made the Patient another cup of tea and the Patient was happy to take it.
- ➤ Not normal practice to put bed up to stop patient getting in only for bed making - sometimes they are left up.

### Question 7: Is it normal practice to stop patients getting in into bed when they wish? Do you agree with this?

- ➤ No not normal practice
- > Sometimes we stop Patients getting back in themselves because they fall

### Question 8: Do you think it was in the Patients best interest to be sitting by a radiator?

➤ No – but the person who pulled the chair forward was probably doing it to stimulate the Patient - he could see out

Page 3:

Name: Yong Pease

### Question 9: Is keeping a Patient up and awake the best way to ensure he sleeps at night?

- > It is one of the ways I am not saying it's the best
- > At home these Patients may get up all night of day but in Hospital you have to consider other people who share the same environment.

### <u>Question 10: What about Patient Centred Care - Patients Choice - Does it really</u> matter when a very ill patient sleeps?

- ➤ I think it does matter
- > If a Patient is not happy we have to talk to the Patient about it
- > We are individuals and using my common sense we / I try to accommodate everyone without upsetting anyone

## Question 11: Why was there no record of this incident in the patient's notes?

> No comment I was not on duty on the 30th

### Question 12: Why were dirty / wet clothes given to a relative to take home and wash?

- > We do not have facilities to do Laundry
- > We do what is socially acceptable i.e.: Sluice off solid matter then give relatives the clothes in a suitable bag

### Question 13: Why were relatives Observations / Concerns expressed to staff on the 28th and 29th Jan. not recorded in the patients notes?

- > I can't comment on that, he was not my Patient
- > He was Blue team, I work on Green Team
- > If Patients relatives complain to me I usually do record it

Page 4:	Name:	Yong Pea	ase
Page 4:	Name:	Yong Pea	35

Question 14: Another alleged incident occurred on the 31st Jan. had an Ultra Sound Scan at GWMH. At approximately 1540pm - he returned to the ward at 1630 - the Nil by Mouth sign was not removed from above his bed -Relatives arrived at 2005pm – and found Code A in a very distressed state. Why was the sign not removed - was the patient given any fluids / food on return to the ward - was he checked at all after he returned?

- > Not on duty so I can't comment
- > The sign should have been removed as he went to x-ray
- > We are a small group of people (staff) and I do check that people have been
- > It was an oversight that sign wasn't removed but staff would have known from Handover that he was allowed supper and drinks.

## Question 15: Can you suggest any way to prevent a similar incident occurring?

> Take the sign down when the Patient leaves the ward

Question 16: Some of the food and fluid charts were not totally completed - this is a very basic nursing duty - when a patient is known to have a low fluid input -Do you know what results from insufficient fluid input/ Can you suggest a way that these could be completed properly?

- > Yes dehydration but there is not a standard of what fluids a Patient should have in 24hrs. - It depends on the Patient / Patients Illness / Patients size
- > For patients who are able / relatives feeding patients we ask them to record it
- > Domestics collect the cups so we don't always know / see how much a Patient has drunk - so it is difficult to be accurate
- > If we had enough Staff we could send someone round to check before the cups are collected

Page 5:

Name: Yong Pease

### Question 17: The Patient spiked a Temperature on several occasions - was this reported to the G.P.?

- > I don't know about this Patient but as routine trained staff I know would report it
- Doctors look at charts too

## Question 18: Is there anything else you would like to talk about / or tell me?

> Not anything attached to this case

- > But I feel where we are under pressure and short of staff / more Patients with multiple problems - we have extended our role and we have no time to reflect
- ➤ It is constant go go go

Interview with: Susan Rowlands

**Date:** 2 May 2002

## Question 1: How long have you been employed by the Trust – Do you work Day or Night duty – Who is your Line Manager?

- ➤ Bank nurse from 1987 1993 Then permanent since 1993
- > Days
- > Ann Haste

#### Question 2: How would you describe your role on Sultan Ward?

- ➤ I'm a D Grade Staff Nurse
- ➤ I manage a team when I am on duty (blue)
- ➤ My responsibilities are to supervise the HCSW's Liase with GP's and others in the M.D.T.
- > Drug Rounds
- Maintain Standards / improve standards
- > Ensure Patients have nutrition / fluids
- > Supervise Students
- > Report any problems back to senior nurses.

#### Question 3: Are you aware of the complaint made by the Son of

Code A

Yes – I have briefly seen it

## Question 4: Can you explain to me the routine you follow when a patient is admitted? Would any extra assessments be done on a patient admitted following multiple falls?

- ➤ Introduce myself first help settle in bed make comfortable
- > Tell them about the general layout of the ward / where toilets are / meal times / about the nurse call system and not to be afraid to use it
- ➤ Baseline Obs / TPR / BP / Wght. / Urinalysis / Barthel score / Waterlow score / nutrition assessment / ADL forms
- > Check skin for lesions / pressure areas
- ➤ Generally make yourself aware what's happened to the Patient / their problems

#### Page 2: Name: Susan Rowlands

- ➤ If Patient has fallen look for injuries / bruising / this is all documented / areas highlighted on a body chart
- ➤ Manual Handling Profile Commenced any injuries are noted on profile
- > GP notified if any query re bony injury / left in bed / plus or minus analgesia

### Question 5: Were you on Duty on Sultan Ward between the 25-1-02 and 1-2-02:

$$ightharpoonup Yes - 25^{th} pm - 28^{th} pm - 29^{th} am - 31^{st} am$$

Ouestion 6; Were you on duty on the 30<sup>th</sup> January? An incident occurred on that day- the relatives of Code A allegedly found him sitting in a chair along side the radiator in his room — The bed was raised to its maximum height and the cot sides were up — the patient appeared distressed / agitated — he had put himself back to bed several times but had been removed from the bed by staff. — This was evidently to keep him awake so he would sleep during the night. Would you agree with this practice — did you witness this happening on that day? — Has it happened before to your knowledge?

- ➤ No not on duty
- > I have seen beds raised but not cot sides raised

## Question 7: Is it normal practice to stop patients getting in into bed when they wish? Do you agree with this?

- No its not
- ➤ Yes and no it's a combination of the two and the Patients condition
- > You gauge it on the day

## **Question 8:** Do you think it was in the Patients best interest to be sitting by a radiator?

- ➤ No but from the mental point of view they were trying to motivate the Patient
- ➤ He could at least see outside

## Question 9: Is keeping a Patient up and awake the best way to ensure he sleeps at night?

> No

#### Page 3:

Name: Susan Rowlands

## <u>Question 10: What about Patient Centred Care – Patients Choice – Does it really matter when a very ill patient sleeps?</u>

- ➤ No it doesn't matter they sit in the lounge and sleep sometimes
- > If we know they have had a restless night we leave them in bed late / and then give them a late breakfast
- > It all depends on the Patient and the Patients condition

### Question 11: Why was there no record of this incident in the patient's notes?

- ➤ I can't comment
- > I was not on duty

## <u>Question 12:Why were dirty / wet clothes given to a relative to take home and wash?</u>

- ➤ If they have been faecal incontinent / vomited / incontinent of urine we always rinse the clothes before we give them to the Relatives
- > We have no Laundry but there is a notice by the nurses station about a private laundry

## <u>Question 13: Why were relatives Observations / Concerns expressed to staff on</u> the 28<sup>th</sup> and 29<sup>th</sup> Jan. not recorded in the patients notes?

➤ I have no recollection of talking to these relatives – but I feel if I had I would have recorded the comments etc.

Page 4: Name: Susan Rowlands

Question 14: Another alleged incident occurred on the 31<sup>st</sup> Jan. — Code A had an Ultra Sound Scan at GWMH. at approximately 1540pm — he returned to the ward at 1630 — the Nil by Mouth sign was not removed from above his bed — Relatives arrived at 2005pm — and found Code A in a very distressed state. Why was the sign not removed — was the patient given any fluids / food on return to the ward — was he checked at all after he returned?

- > I went off duty at 1230pm before this Patient went for his ultrasound
- > So I have no knowledge of what happened on his return

### Question 15: Can you suggest any way to prevent a similar incident occurring?

> The sign should be taken off when the Patient goes down – then its gone

Question 16: Some of the food and fluid charts were not totally completed — this is a very basic nursing duty — when a patient is known to have a low fluid input — Do you know what results from insufficient fluid input/ Can you suggest a way that these could be completed properly?

- > You get dehydrated / U/E's imbalance
- > Since this has happened. When I am on duty I delegate one specific person to be responsible for fluids and completing the charts

## <u>Question 17: The Patient spiked a Temperature on several occasions – was this</u> reported to the G.P.?

> I don't know

#### Ouestion 18: Is there anything else you would like to talk about / or tell me?

> Not really

### Question 5: Were you on Duty on Sultan Ward between the 25-1-02 and 1-2-02:

➤ Yes - 26<sup>th</sup> - 27<sup>th</sup> - 28<sup>th</sup> - 31<sup>st</sup> Jan and 1<sup>st</sup> May

➤ Code A was Blue Team then Green Team

Question 6; Were you on duty on the 30<sup>th</sup> January? An incident occurred on that day- the relatives of Code A allegedly found him sitting in a chair along side the radiator in his room – The bed was raised to its maximum height and the cot sides were up – the patient appeared distressed / agitated – he had put himself back to bed several times but had been removed from the bed by staff. – This was evidently to keep him awake so he would sleep during the night. Would you agree with this practice – did you witness this happening on that day? – Has it happened before to your knowledge?

> Not on duty - so can't comment

## Question 7: Is it normal practice to stop patients getting in into bed when they wish? Do you agree with this?

- No no
- ➤ I think that they put the bed up to make it and left not to stop the Patients getting onto the bed
- > It would be put down later for him to get into

## Question 8: Do you think it was in the Patients best interest to be sitting by a radiator?

➤ Most Patients ask to be pulled forward so they can see out – it is not a bad view

## Question 9: Is keeping a Patient up and awake the best way to ensure he sleeps at night?

- > I would say it wasn't a Policy
- > You can't keep them awake

Page 3:	Name: Code A
Questic matter	on 10: What about Patient Centred Care – Patients Choice – Does it really when a very ill patient sleeps?
>	No it does not matter - no
Questic	on 11: Why was there no record of this incident in the patient's notes?
>	No comment
wash?	on 12:Why were dirty / wet clothes given to a relative to take home and
> >	That's what we do if they have people / relatives to do it If not we ask the ladies in the Laundry downstairs – they are usually very good
Questi the 28	on 13: Why were relatives Observations / Concerns expressed to staff on and 29th Jan. not recorded in the patients notes?
>	They made no comments to me personally

Page 4:	Name:	Code A

Question 14: Another alleged incident occurred on the 31<sup>st</sup> Jan. — Code A had an Ultra Sound Scan at GWMH. at approximately 1540pm — he returned to the ward at 1630 — the Nil by Mouth sign was not removed from above his bed — Relatives arrived at 2005pm — and found Code A in a very distressed state. Why was the sign not removed — was the patient given any fluids / food on return to the ward — was he checked at all after he returned?

- Yes I was on duty after supper Code A (the student nurse) came out of the Patients room and said the man in there is shouting at me she was confused as the nil by mouth sign was above the bed I went to their team leader Pam I did not deal with the Son
- ➤ I asked the relatives to wait outside and Code A and I went in and washed and changed and put a sheath on the Patient the previous sheath had come off
- ➤ The Son started shouting but the lady thanked me I said nothing back the lady asked her husband to stop shouting it was not the nurses fault
- > I went to help him (patient) but really he was not on my Team any longer but you can't say no
- We had checked him twice earlier
- > The sign should have been taken down when he went to x-ray
- ➤ He had supper see chart I didn't feed maybe Code A or Mary

### Question 15:Can you suggest any way to prevent a similar incident occurring?

- > In future make sure the sign comes down when the Patient goes down
- > I think it was a genuine oversight

<u>Question 16: Some of the food and fluid charts were not totally completed – this is a very basic nursing duty – when a patient is known to have a low fluid input – Do you know what results from insufficient fluid input/ Can you suggest a way that these could be completed properly?</u>

- Dehydration
- > Completing charts seems to be one of our failings
- Sometimes we are not aware they are on charts if you miss part of handover
- > Could a coloured star or dot be put by Patients name / bed
- > All I can say is Ann will have to emphasise the importance of completing charts properly all day

Page 5:	Name:	Code A
1 44 000		· · · · · · · · · · · · · · · · · · ·

<u>Question 17: The Patient spiked a Temperature on several occasions – was this</u> reported to the G.P.?

> I can't comment on that

### Question 18: Is there anything else you would like to talk about / or tell me?

- ➤ I would like to add Why couldn't this person have come and discussed it before writing the complaint
- > I can honestly say the staff are good and reliable
- > I have never heard any complaints about the staff
