Sadly my wife Margaret died peacefully in your Hospital on 18 August, after being admitted on 11 August.

I would like to thank all the Nursing Staff in Sultan Ward, and the Doctors involved, for the wonderful care and attention they gave Margaret throughout, and their unfailing sympathy and helpfulness.

Everyone was clearly dedicated to making her as comfortable as possible, and to keeping close relatives fully informed.

Immediately after her death the sympathy and advice we received was very welcome, and your own Booklet "Because We Care" has been invaluable.

Good Luck,

**Code A**
