**Subject:** GWMH Action Plan

Code A

At last Wednesday's ( 27 Nov) PCT public board meeting in Fareham & Gosport the attached document was formally approved.

Nigel McFetridge has been our key link in terms of SHA involvement in this and 'sign off' which was formalised about 2 weeks ago. Julie Miller from CHI has also now been sent our final version and is a happy with this. I understand that she will post it on the CHI website once the SHA and DOH action plans have been finalised.

We are now in the process of sharing this Action Plan with local interested parties since it is now in our local public domain. Circulation of the Plan will be to all those individuals who attended an action planning workshop event on the 1 August, the relatives of the GWMH Action Group ( they have already been on the phone about this) and the local CHC. It will hopefully be sent out tomorrow or Thursday with a covering letter from our Chair.

As the SHA has the media lead for all issues relating to GWMH and CHI investigations etc, we attach a copy of the PCT Action Plan for your information/use. Please get back if you have any queries about this. Thanks Kathryn
