Karen sorry for the delay. I didn't actually get all the notes until just before xmas.

Have been in regular communication with Pathologist who did pm and all results not back to him by Mid Jan

As you know I'm on maternity leave and it has been a scramble trying to complete everything before I go.

Aiming to have it completed by end of this week, will need Martin to have a quick look for measles never done one before

Sorry for the delay but thought it was better I did it rather than trying to delegate it.
