Subject: RE: Inquest of Robert BAYLIS DIED: 29/05/09

Many Thanx Elaine

I have looked at the file and we don't seem to have received any correspondence from any Solicitors so I am assuming that family will not be represented. Although, sometimes they do turn up with representation without letting us know, but that doesn't happen all that often.

I will try and clarify with family when I am in a better position to book an Inquest date with them. I will let you know if they are. If you hear nothing then assume that they won't be.

Hope this makes sense

Regards

Lisa

Lisa

I received the notes and have sent them off with the request for a report. The medical element will be provided by a GP as I think these are GP beds on Sultan ward. The clinical nurse manager will be looking at the nursing aspect but hopefully it will be in one report as it is only for a 2 day period.

Do you know if the family have any concerns?

And yes thanks, I had a good holiday in Cornwall, and the weather was very kind!

Hi Lisa

Just to update you, I haven't received the notes yet and am away after today, back in the office on 29th by which time I hope the notes will have arrived.

Regards

Elaine

 Subject: RE: Inquest of Robert BAYLIS DIED: 29/05/09

Hi Lisa

I've spoken with Sue Skye who has given me some information, having looked at PAS which I don't have access to. Mr Baylis was on Sultan Ward on 26 + 27th May only. (Sultan Ward is the only ward that we staff at GWMH, and it is GP led ward) We think that the notes for this period will be included in Portsmouth Hospital NHS Trust notes, but Sue is arranging for the notes to be pulled for her report and they will be check for notes for those 2 days. If so a member of her team will copy the section relevant to GWMH 26th and 27th and send them to me. I will then identify who is best placed to provide a report, probably the GP(s) that saw him during those 2 days.

I obviously won't be able to identify that person until I get the copies of the notes, so this is not likely to be a quick turn around. I hope that won't cause you any problems?

I will keep you advised of progress.

Regards

Elaine

Hello Elaine

I am dealing with the death of the above named person who was transferred to QAH from GWM due to diarrhoea and vomiting. Bowel Obstruction? He then developed acute renal failure and chest sepsis and was placed on surgical high care, but did not improve and then was placed on the Liverpool Care Pathway. Medical notes showed Asbestos related plaques. Employment history of retired rear admiral and possible also the construction industry. Histology was taken at Post Mortem. Awaiting results. I have today opened and adjourned an Inquest. Could I please request a hospital report from the person who can best inform the Coroner about the treatment this gentleman received from the time of his admission to his transfer to QAH please? I have requested a similar report from Sue Skye to cover the Portsmouth side of things. I do apologise, I do not know what ward this gentleman was on, whilst at GWM.

Many thanks for your time in this matter

Lisa JOHN
