

NB. 2nd Para. On Medical Admiss
form.

✓ Closed reduction under I.V.

Sedation. Remained unresponsive
for some hours.

Dr Barton has pointed this out
on more than one occasion
and at inquest -

I.V. 2mg of Mädaazala ~~was~~
was used for op for dislocation
in Haslar.

THEN. Dr Barton prescribed 20mg
Mädaazala to go in Syringe Driver
with Diamorph. 40mg. WHY. —
Posv question Dr B. at inquest. L.
