

Q HR Beed. Do you remember that I was there when my mother was admitted on 11th

Q Do you remember she was admitted to a single room down the corridor & not by the Nurses Station?

It is correct in fact

My mother arrived in a wheelchair and I was there. She was referred to a chair in her room.

Q Do you remember that I unpacked her belongings and she was cooperative and not in pain on admission?

Not seen at all on 19th Nursing care

Am I right that you have said - she was in pain on movement & she was awake
If he can't remember
ask is it possible that?

May I try and refresh your memory on fact?
