

**We fought for justice**

With reference to Pamela Milner's letter (*Doctor is a scapegoat, May 3*) I can tell Ms Milner what I hoped and hope to achieve: justice for possibly 92 families eventually and coverage at the inquest of the part played by nurses and a specific nurse in our case.

Did Ms Milner take the trouble to attend the inquest or the other 10 inquests in 2009 – or the GMC hearing into 12 cases – both open to the public?

Has she a query why the inquest into my mother's death granted at my own expense by Jack Straw in 2009 was not heard with the others?

Was she aware that Mrs O'Brien (my sister) was a nurse (and witness) and had 40 years' experience dealing with the elderly and dying? Did Ms Milner read the Commission for *Health Improvement Report* in 2002? Does Ms Milner

Tues May 14 2013.

know the reason why the *Baker Report on Mortality Rates 2002* has been withheld from publication by the Department of Health?

Is Ms Milner aware of the complaints against the Hampshire Constabulary were upheld both in 2001 and 2004?

Is Ms Milner capable of researching the subject before rushing into print?

It is possible I know the answer!
