Is Lesley saying after our mother came out of X ray she was given two more doses of oramorph when she was completely "out of it " when she came out of X ray and I certainly did not see her conscious again. Ferner seems in a complete muddle - there is no suggestion that mother had diamorphine by injection or otherwise between 11th and morning of the 14th. Ferner acknowledges a letter from White dated 8th. May which would have arrived on the 9th. not a letter on the 2nd. And presumably his of the 11th. Would have arrived before the 16th. at John's office - is anybody competent or honest anymore. Gillian
