Prof. Ferner's Secretary [Code A] – In Ferner's opinion he states he had not seen all the papers before when writing an opinion for [Code A]. I have heard nothing further from [Code A] – Lesley may be able to converse with him on medical terms and also her eye-witness account of Beed. Time is running out if we are to make appeal for judicial review or other action. Just been looking at previous correspondence from Burt (on personal basis) in which he states he hopes we can meet again !.
