Peta – have been in Gosport all day and only just returned – could you ask Lesley to return the Ford Report and may I have the Livesley report when you have a moment. Beed did the same thing to another family – rang the husband for permission to give diamorphine and when the husband refused said “Well I can always ask Barton on the telephone for permission (Barton had not seen the patient) The husband gave permission and blames himself for his wife’s death as he had only seen her about an hour before (with a slight stroke) able to talk and laugh. Ernest was ambulance crew – not completely without knowledge – he never understood how his wife had relapsed so suddenly. See the CHI Report and the highest level of diamorphine doses in 1998 when Beed joined the staff – main job to deal with staffing levels not Nursing. Previously employed at the John Radcliff Hospital – Barton’s brother Christopher Bulstrode also who joined the GMC Council in 2008 just as our case was going to be heard for the 3rd postponed date. I informed the GMC who denied that they knew Bulstrode was Barton’s brother. Barton registered with them under her single name. GMC carried on denial even when it got into the Press after the inquests (I was not the source) Gillian

Subject: RE: Missing information

Dear Mrs Mackenzie,

As I have now reached a verdict on your mother's death and completed her Inquest, the legal position is that I have become "functus officio" in relation to her death. This means that my involvement is over and that I cannot look at issues surrounding Mrs Richards' death any further unless ordered to do so by the High Court. Nor can I enter into any further correspondence regarding the death.

I'm sure Mr White will explain this to you.

Kind regards,

David H.

John

I would like confirmation that you did or have since the inquest informed Prof. Ferner re. the drugs given by Beed to my mother on the 17th. August i.e. Oramorph at approx. 1pm followed by two injections of diamorphine witnessed by Lesley and myself – one approx 2 30 pm before Mother was examined by Dr. Barton at 3.30 pm and a “booster” just before Mother went down to X ray. (the whole crunch of the case) I would like confirmation in writing – to include Prof. Ferner’s reaction . According to his body language (I have no degree) he was unaware of this.

I am awaiting further reaction or inaction to the other matter to which I referred in my last telephone conversation with you – I will not let the matter rest but I do not have another 15 years to spend on the matter. Gillian
