

Ref. AF11/C/18. 3.8.98 2nd para. Mrs Richards should be given the opportunity to remobilise for 2-4 weeks. This shows that my Mother's progress warranted her transfer to continue her convalescence by AF11/C/22. Transfer letter from Gosport Hosp to Haslar following a fall. No mention is made of a fall which caused the dislocation. It should be noted that the addition of Oxamorph to her medication is mentioned.
