7 Jan. 2002

Wesley Just to let you know, in the interest of accuracy and on 'advice' to 'push all the buttons as this case has never been fully explored', I have sent your notes, Max Miller's reply & my comments, the medical file & Price statement to the Portsmouth News.

I have also sent papers to ALERT 'Advice' has suggested how the case could cause a scandal - both for the CPS in accepting Dr Hord's opinion & the Gosport CID initial investigation - Price HQ not dealing with the complaint against Morgan & Madison until I went to the PETA. - The long investigation (I have every faith in Ray Butt) The long delay by CPS Horden & the peculiar referral to Treasury Counsel (not a QC) - Melburn's involvement - the non interviews to date)

of 10 other possible cases - Government embankment of another Superman type accident within the NHS which would cause a political upheaval.

There was no evidence whatsoever of a haematoma - did you see any & were you asked. I am surprised to learn you did not comment on the 'palladium case' days earlier up from the 11th August. I am aware of some of Prof. Newby's comments re hypoxia etc.

I am aware of 2 more cases re medical notes & in view of this interviewing shouldn't you get involved.

Eventually all the details will be exposed & CHI cannot see the medical files without our ^{my} permission - they do not seem to know about the Data Protection Act - are amateurs! They will only find that in the last 3 years things have changed but they were unaware that Benton is still employed by Pilsbury Healthcare Trust & Beed has disappeared. were you aware that a Nurse

Came forward for the prosecution expressing
concerns about Benton and Reed.

I was 'advised' to see John James
but he has refused. The Crown brief
will continue to fester.

Gillian.

P.S. I see you are referred to as Mrs
Richards - father would turn in his
grave.

Mrs. Counsel's opinion to effect that
diphtheria leads to pneumonia &
therefore Mother died of pneumonia is
not acceptable - did you know of this
argument. Prof. Herby has now returned
& I shall be writing to him. Perhaps
there are still some people left with
integrity.
